PROFESSIONAL OVERVIEW

Adaptable Software Engineer with experience building scalable web and mobile applications. Skilled in full-stack development, automation, and cloud deployment, with a focus on writing clean, efficient, and secure code. Strong team player who thrives in agile environments and delivers practical, user-focused solutions through collaboration and continuous learning.

PROFESSIONAL EXPERIENCE

Software Developer *(held under the Network Technician title)*

Good Spirit School Division, Yorkton SK | 2024 - Present

- Developed and deployed scalable web applications (React.js, Laravel, MSSQL, APIs) that modernized digital operations across 27 schools, reducing onboarding time by 65% and cutting data entry errors by 80%.
- Automated IT and administrative workflows with PowerShell and Google Apps Script, reducing hours of work into minutes and improving consistencies of system processes.
- Built intuitive, user-centered platforms enhancing collaboration and transparency for staff and administrators.

Network Technician *(Co-op Student)*

Good Spirit School Division, Yorkton SK | 2022 - 2023

- Developed and deployed the first Online Student Registration System prototype, kickstarting the division's digital transformation initiative.
- Enhanced network performance by configuring switches and access points, expanding Wi-Fi coverage by ~40% across multiple schools.
- Worked collaboratively with IT teams and end-users to resolve Tier-2 issues for 1,000+ users, ensuring clear communication and timely support.

SELECTED PROJECTS

SecureMe – Mobile App (Capstone Project)

Built a cross-platform safety app (Flutter, Firestore, Figma) with SOS alerts and live tracking; led front-end and QA in a 3-person Agile team.

SDG Showcase Website – Client Project

Led a 5-person Agile team to design and launch a Sustainable Development Goals website.

Self-Hosted Web Server – Personal Project

Deployed a Dockerized portfolio on a self-hosted server with reverse-proxy, uptime monitoring, and secure configuration for reliable performance.
