PROFILE

Software Developer with 5+ years of experience building and maintaining full-stack web applications using React, Next.js, Node.js, and SQL. Experienced in managing projects end-to-end from requirements gathering to deployment and ongoing support.

WORK EXPERIENCE

Anishinabek Nation, *Software Developer*

Apr 2022 – Dec 2025 | North Bay, ON

- Developed and maintained full-stack applications using React, Next.js, Tailwind CSS, Node.js, and SQL supporting 39 First Nations across Ontario.
- Planned and managed 2 major software projects including a large-scale member portal with multiple user bases, delivering tailored access and features for 39 First Nations.
- Managed CI/CD pipelines, version control (Git), workflows, and production deployments, improving deployment reliability and efficiency across projects.
- Optimized application performance, accessibility, and reliability through debugging, refactoring, and user-focused enhancements resulting in smoother user experience.
- Documented technical processes, architectures, and user workflows to support maintainability and knowledge transfer.
- Developed and maintained organization-wide and departmental SharePoint sites, improving document accessibility and collaboration.

Y4U Technologies Inc., *Web Developer*

Feb 2020 – Feb 2022 | North Bay, ON

- Developed mobile and web applications using AngularJS, PHP, SQL, HTML, and CSS, delivering secure, responsive, and user-friendly solutions.
- Collaborated directly with clients to gather requirements, provide design input, and ensure solutions met business and technical needs.
- Developed, maintained, and optimized software solutions that were sustainable, visually appealing, secure, and practical for end users.
- Implemented best practices in coding, testing, and documentation to ensure long-term maintainability and high-quality deployments.
