Professional Summary

Detail-oriented and motivated Computer Programming graduate with a unique foundation in legacy systems development through COBOL. Combines technical proficiency in modern languages (Java, C#, JavaScript) and established languages (COBOL, SQL) with strong problem-solving and client-service skills. A reliable team player seeking to apply a versatile skill set to a challenging developer position.

Technical Skills

- Programming Languages: COBOL, Java, C#, JavaScript, SQL, HTML, CSS
- Tools & Technologies: Git, VS Code, Eclipse, MS Office Suite, Google Workspace
- Concepts & Methodologies: Object-Oriented Programming (OOP), Debugging, Software Design, Agile Methodologies
- Soft Skills: Client Service, Team Collaboration, Problem-Solving, Time Management, Attention to Detail
- Languages: English (Fluent), American Sign Language (ASL - Conversational)

Projects

Inventory Management System | Java, OOP Principles

- Designed and developed a console-based application to track inventory levels, orders, and sales.
- Implemented core OOP concepts including encapsulation, inheritance, and polymorphism to create a modular and maintainable codebase.
- Wrote unit tests to validate functionality and ensure reliability, reducing logical errors by an estimated 25%.

Legacy Data Migration Utility | COBOL, JCL, DB2 (Academic Simulation)

- Created a COBOL program to efficiently extract and reformat customer data from a sequential file for migration to a modern relational database.
- Utilized file handling and data validation techniques to ensure 99% data integrity during the transfer process.
- Wrote accompanying JCL to execute the batch job, gaining hands-on experience with a mainframe development environment.

Personal Portfolio Website | HTML, CSS, JavaScript

- Built a responsive static website from scratch to showcase projects and skills.
- Implemented modern CSS layouts (Flexbox) to ensure an optimal viewing experience across desktop and mobile devices.

Professional Experience

Volunteer Experience

Community Support Volunteer | Durham Alliance Outreach, Oshawa
August 2022 – Present

- Supported community outreach programs by efficiently sorting and organizing food donations, ensuring a timely distribution of essential supplies to clients.
- Demonstrated reliability and a strong commitment to the organization's mission of supporting vulnerable community members.
- Collaborated effectively with a team of volunteers and coordinators to maintain an efficient workflow in a fast-paced environment.
- Upheld strict standards of confidentiality and respect when interacting with and assisting clients accessing services.

Full-Time Family Caregiver

May 2020 – August 2022

- Provided dedicated and compassionate full-time care for a grandparent, managing daily living activities and medical appointments.
- Developed strong skills in patience, empathy, and proactive problem-solving in a dynamic and high-responsibility environment.
- This period of personal commitment allowed for a refocus on long-term career goals, leading to the pursuit of a diploma in Computer Programming.

Education

Diploma in Computer Programming | Durham College, Oshawa
January 2024 – August 2025

- Relevant Coursework: Mainframe Programming with COBOL, Object-Oriented Programming (Java, C#), Web Development, Database Management & SQL, Software Design

General Arts and Science Certificate | Durham College, Oshawa
September 2019 – May 2020

American Sign Language (ASL) Certificate | Durham College, Oshawa
September 2017 – May 2019
