To whom it may concern:

Please find below information to serve as a reference for Bradley Baker. This letter confirms current employment at the Canada Revenue Agency (CRA) as an IT Developer starting on July 8, 2024. He works on a regular full-time schedule of 37.5 hrs/week. Prior to his current employment Bradley worked as a co-op student in my section of CRA for the Fall 2021 term and again for the Summer 2023 term. In July of 2023 he was hired as a CS-01 IT Developer in the CRA IT Apprentice Program.

Bradley's work responsibilities as a CS-01 IT Developer (CS0082) at the CRA include the following:

- Performing analysis of new business requirements.
- Designing web pages in mock-up form for discussion with end-users.
- Preparing detailed design documents to assist developers in their work.
- Performing unit testing of newly developed code.
- Providing analysis and prompt resolution of new problem tickets.
- Providing technical demonstrations, mentoring and presenting to colleagues, management, and business clients.
- Programming IT solutions in Java and Angular.
- Modifying and integrating changes for computer applications.
- Participating in the team's Agile Scrum sprint planning to aid effective project management of tasks.
- Peer reviewing code in an agile environment, committing the code to the code repository, and migrating the code to the Unit Test servers.
- Monitoring and responding to requests, while adhering to set service standards of the Service Level Agreement (SLA).

As an additional testament to Bradley's character, he has demonstrated intelligence, skill and thoroughness in producing excellent quality work. My area has been fortunate to benefit from his collaborative demeanour and extreme competence.

Should you require further information please do not hesitate to contact me directly.
