

Martin Morales - Available for New Grad Opportunities Starting January 2026

mmorale5@lakeheadu.ca ❖ (647) 804-2296 ❖ Thunder Bay, ON ❖ Ajambot.github.io

EDUCATION

Lakehead University

HBS, Computer Science with Business Focus. Minor in Economics. Co-op.

September 2021 - December 2025

Thunder Bay, ON

- **Cumulative GPA:** 92.5%
- **1st Place:** Lakehead IEEE Hackathon
- **President's list:** 2021-2022, 2022-2023, 2023-24, 2024-2025.
- **Awards:** Sher Ali Mirza Award 2022 (1,780 CAD), Ontario Remembrance Award 2024 (10,000 CAD)
- **Undergraduate Research:** See WhisperLink Project and Research Assistant below

EXPERIENCE

Data Analyst - Lakehead University International Enrolment

May 1, 2023 - Present

Thunder Bay, ON

- Engineered internal tools written in **Python** and **Google Apps Script** to automate the import of information to the database, drastically enhancing productivity.
- Designed and implemented a **historic enrollment analysis dashboard** by integrating 7 years of applicant and enrollment data, enabling stakeholders to track key performance indicators (KPIs), identify trends, and evaluate cyclical performance for data-driven decision making.
- Developed and tested multiple machine learning models with **Scikit-learn** and **TensorFlow** that predict student enrollment with an 80% accuracy given factors like engagement with marketing campaigns, country, level of study, etc.
- **Supervised** and **mentored** multiple team members in advanced data cleaning and importing procedures.

Research Assistant - Faculty of Business Administration. Lakehead University

September 15, 2024 - Present

Thunder Bay, ON

- Performs social media **sentiment analysis** and **topic modeling** to analyze discussions and attitudes surrounding menopause and adhd in the workplace.
- Work In Progress Paper accepted into the [ASAC 2025](#) and [AOM 2025](#) conferences in Waterloo, Canada and Copenhagen, Denmark.

PROJECTS

Riposte – The AI-Powered Social Media Scheduler

<https://riposte-main.vercel.app/>

- Led a team of developers in building an AI-assisted social media scheduling app using **Next.js**, integrating with Bluesky and X (formerly Twitter).
- Developed and implemented the **Bluesky API** connector to support login/logout, post creation, fetching user posts, and session management.
- Integrated Google **Gemini LLM** to generate personalized post captions based on user history and intent.
- Designed social media testing environments and contributed to project presentations and slide deck development.
- Gained hands-on experience with **Next.js** (SSR, routing, NextAuth), **serverless** functions, and **third-party API** integration.

Quoteversation.me - The Quotes Social Media App

<https://github.com/Ajambot/Quoteversation>

- Employed the **MERN** stack and **Typescript** to develop a Twitter/Threads clone that allows users to share their favourite quotes with their friends and followers.
- Deployed the app on **AWS** using an **EC2** instance for the backend with an **Nginx Reverse Proxy** handling https requests, and an **S3 Bucket** in collaboration with **Cloudfront** to serve the app to end users.
- Containerized the app using **Docker** for ease and reliability of deployment and set up **Github Workflows** for Continuous deployment to the AWS services.

WhisperLink - The Anonymous and Private Online Messaging Service

<https://github.com/Ajambot/WhisperLink>

- **Collaborated in a team** of 3 developers to design, plan and implement an online chat app focused on anonymity and security.
- Spearheaded the implementation of end-to-end encryption, and seamless backend connectivity using **React** and **Firebase**.
- Successfully defended and **published a research paper** based on this project at the **IEEE SNPD 2024** International Conference in Beijing, China.
 - DOI: <https://doi.org/10.1109/SNPD61259.2024.10673917>

MoQuoDB - Movie and TV Series Quotes Database CLI

- Implemented a **Python** command line interface using the pyodbc driver to perform **CRUD** operations on a local **Microsoft SQL Server** database with a predefined schema

SKILLS

Front-End Development (HTML, CSS, React, Vue.js, Bootstrap, Tailwind), Back-End Development (Django, Node.js, Microsoft SQL Server, MongoDB), Next.js, Data Analysis, Python, C/C++, Java, Docker, AWS, Firebase (GCP), DevOps, Teamwork, Problem-solving, Data Structures, Git/Github, Research Publication, Full-Stack Development.

**Student Name:** Mr. Martin Morales**Program (s):**

HBSc (Computer Sc) Co-op

Student ID: 1172178**Fall Term 2025 (2025-09-02-2025-12-02)**

Course Section	Title	Credits	Final Grade
COMP-3413-FA 2025-09-02 - 2025-12-02	Data Base Management Systems	0.50	
COMP-3413L-F1 2025-09-02 - 2025-12-02	Lab for Comp 3413	0	
COMP-4111-FA 2025-09-02 - 2025-12-02	Clinical Decision Support	0.50	
COMP-4411-FA 2025-09-02 - 2025-12-02	Programming Languages	0.50	
COMP-4478-FA 2025-09-02 - 2025-12-02	Game Programming	0.50	

Student Name: Mr. Martin Morales		Program (s): HBSc (Computer Sc) Co-op	
Student ID: 1172178			
Spring Term 2025 (2025-05-01-2025-06-30)			
Course Section	Title	Credits	Final Grade
COMP-4990-SA 2025-05-01 - 2025-08-31	Co-Op Work Term V	0.50	

Student Name: Mr. Martin Morales
Student ID: 1172178

Program (s):

HBSc (Computer Sc) Co-op

Winter Term 2025 (2025-01-06-2025-04-04)

Course Section	Title	Credits	Final Grade
BUSI-3255-WA 2025-01-06 - 2025-04-04	Entrepreneurial Venture Mgmt	0.50
