Toronto, ON M4C 2K1 | +1(289)808-2389 | megharai.yyz@gmail.com

Career Objective

Detail-oriented and motivated engineering graduate seeking an entry-level role in software testing. Skilled in analyzing systems, identifying issues, and ensuring quality through structured testing methods. Eager to apply technical knowledge and problem-solving skills to contribute to product reliability and organizational success..

INTERNSHIP Experience

Connectm (3 Months)

- Gained exposure to cloud environments and troubleshooting, developing analytical skills useful in testing.
 - Worked with AWS services (EC2, S3, RDS, Lambda) and monitored system performance using CloudWatch.
 - Collaborated with team members to identify and resolve technical issues.
-

Education

Bachelor of Engineering in Information Science

Sri Devi Institute of Technology, Mangalore – *August 2021*

Skills

- **Testing Knowledge:** Manual testing, test case design, defect reporting, basic automation concepts
 - **Technical Skills:** SQL, HTML, C/C++, AWS basics, Machine Learning fundamentals
 - **Professional Strengths:** Quick learner, detail-oriented, team player, strong analytical skills
 - **Languages:** English, Hindi, Kannada, Tulu
-

Projects

- **Detection of Phishing Websites using Machine Learning**
Designed a framework to detect malicious webpages, focusing on accuracy and error handling.
- **Object Detection using Machine Learning**
Built a system to detect objects from images and video streams, applying validation and testing techniques to improve reliability.

Volunteer & Interest

- Assisted in organizing college events and workshops.
 - Volunteered in community initiatives and mentoring.
 - Hobbies: Reading, Dancing
-
