

DENYS MYROSHNYCHENKO

St. John's, NL | 709-690-0913 | denismyroshnychenko@gmail.com

Software Developer with over two years of experience in creating and optimizing features for online platforms. Proficient in a variety of programming languages and tools, including C#, Python, JavaScript. Experienced in both system administration and software development, with a strong focus on automation.

SUMMARY OF QUALIFICATIONS

- **Front-end Expertise:** Experienced and knowledgeable in C#, .NET, JavaScript, Laravel, Angular, React, MySQL, Python for automation and testing, server management, network configuration, security protocols.
- **Web Development & UI Design:** Designed and implemented user-friendly website administration interfaces, improving accessibility for non-technical users.
- **Data Integration & System Configuration:** Skilled in converting data formats, configuring databases, and updating code for system optimization. Experienced in developing and enhancing features for online data integration and GIS platforms.
- **DevOps & Automation:** Contributed to CI/CD pipelines, automated testing, and Python scripting to streamline software deployment and increase productivity.
- **System Administration & IT Support:** Managed IT infrastructure, installed and maintained hardware/software, provided technical support, and ensured network security.
- **Global Website Localization & User Engagement:** Assisted in website translation and developed video tutorials to improve accessibility and user experience.

EDUCATION

Diploma of Computer Science Technician at District School Complex No. 2, Kościerzyna, Poland | 2019 – 2022

WORK EXPERIENCE

SOFTWARE DEVELOPER

May 2025 – Nov 2025

Activebooker (activebooker.com), St. John's, NL, Canada

- Developed and maintained full-stack web applications using Angular, .NET and Laravel, implementing dynamic booking systems and complex business logic.
- Implemented Laravel controllers, models, and database relationships to enforce business rules, manage bookings, and handle payments.
- Optimized frontend performance by reducing load times, improving responsiveness, and implementing efficient state management.
- Built reusable components, optimized frontend and backend performance, and collaborated with QA to ensure high-quality releases.
- Managed relational data in MySQL, created pivot tables, and ensured consistency of business logic across all booking flows.

MANUAL TESTER

Nov 2024 - Jan 2025

Cornerstone consultant (cornerstoneconsultant.com), Ontario, ON, Canada

- Conducting manual testing of web applications to identify defects and ensure software quality.
- Creating and executing test cases, reporting bugs, and collaborating with developers to improve application performance

JUNIOR SOFTWARE DEVELOPER

Oct 2022 – Oct 2024

ICI Innovations (iciinnovations.com), St. John's, NL, Canada

- Contributed to the design and implementation of new features for a large-scale online data integration and GIS platform, ensuring scalability and market readiness.
- Developed automated tests and scripts in Python to enhance software reliability and deployment efficiency.
- Built and maintained platform components using C#, Angular, .NET, and MySQL, ensuring seamless functionality across the technology stack.
- Conducted code reviews, performed debugging, and optimized code for maintainability and performance.
- Implemented CI/CD pipelines and DevOps practices to streamline development workflows and improve software deployment.

SYSTEM ADMINISTRATOR (INTERNSHIP)

Apr 2022 - Jun 2022

Lubiana S.A (lubiana.com.pl), Lubiana, Poland

- Was responsible for the system administrations on porcelain products factory where maintained and optimized servers, networks, and workstations to ensure reliability and efficiency.
- Installed, configured, and updated operating systems, software, and hardware components, ensured system productivity.
- Provided technical assistance to employees by troubleshooting hardware, software, and network-related issues.
- Configured, monitored, and maintained network systems, resolving connectivity issues and optimizing network performance.
- Implemented cybersecurity protocols, monitored threats, and ensured data protection through access control, firewalls, and security updates.

LANGUAGES

English: fluent (TOEFL Score: 82-86), **Ukrainian:** native, **Polish, Russian:** fluent.
