SUMMARY

Software developer with experience building responsive, API-driven web applications using React.js and Python (Flask). Quick learner who enjoys solving problems, collaborating in remote teams, and continuously improving through hands-on projects.

EXPERIENCE

Digital Express Post GmbH

Software Developer

October 2021-May 2023 Germany (remote)

- Contributed to web and mobile application development using **React.js, Vue.js, Flask, Flutter, and SQL**.
- Developed front-end features for platforms such as **Rhome (React.js + Flask APIs, Flutter prototype)**, **Coachera (Vue.js front-end)** and **Alphalerts (Python-based software solutions)**.
- Collaborated with the team, completed tasks on time, and kept learning throughout the projects.

PROJECTS

Music Analysis App

- Developed a web app to fetch or upload CSV files of music records, analyze data in Django, and display insights on a React + TailwindUI frontend.
- Integrated backend APIs with the UI for real-time results, ensuring responsive design and smooth deployment.

rhome-Global Mobility Platform

- A software platform that helps companies manage global mobility, from work trips to employee assignments, with scalable and customizable solutions
- Built the front end using React.js, worked on backend APIs with Flask, and created a prototype mobile app in Flutter.

Coachera

- An online platform (in development) to help learners connect with instructors and manage their studies.
- Developed front-end features using Vue.js and supported the team with interface improvements.

Alphalerts

- A financial alerts and monitoring platform.
- Worked with other developers to build software solutions, gathered user requirements, and wrote programs mainly using Python.

LANGUAGES

English
Urdu

SKILLS

Frontend:

React.js, JavaScript (ES6+),
Vue.js, HTML, CSS,
TailwindCSS

Backend:

Python (Flask)

Databases:

SQL, Postgres

Tools:

Git, REST APIs, Responsive
Design

Soft Skills:

Fast learning,
problem-solving, remote
collaboration, curiosity

EDUCATION

**University of
Engineering and
Technology**
BS Electrical Engineering

Lahore Pakistan
