

Mohan Ram Selvaraj

Thunder Bay, Ontario, P7B 1X2

+1 807 358 5994

mohanramselva@yahoo.com

SUMMARY

Innovative electrical graduate with ~3 years of E&I experience to design, install and maintain electrical systems and automation in industrial environment, power generation and Automation. Along with compliance to industrial safety standards. Published researcher in power electronics with track record of delivering high-quality workmanship, ability to solve electrical problems using critical and innovative thinking and increasing productivity by collaborating efficiently with the team.

EXPERIENCE

Finisher (Electrical), 07/2024-08/2025

Alstom- Thunder Bay, Ontario

- Perform task on electrical wiring, termination and routing plan as per the design plan with industrial safety standards and proper workmanship.
- Perform quality inspection, serialization of the equipment's, maintain station work orders and data sheets as per requirements.
- Perform self-inspection on a production line as per electrical safety standards..

Technician -Industrial Labour, 05/2024-06/2024

GFL Environmental - Thunder Bay, Ontario

- Perform tasks given with complete safety standards and procedures in the processing plant (Waste water and Oil processing) as per WHMIS guidelines.
- Operate machines like crushers, press and boilers as per the instructions provided. Use of chemicals and solvents as per hazardous waste management data sheets.

Cook/Super Visor (Part-Time), 07/2021-Current

Wacky's - Thunder Bay, Ontario

- Supervised and managed the kitchen staff in preparing, cooking and presenting food.
- Maintained accurate inventory records of all food items received and used in the kitchen. Receive food trucks and organize them as per the storage standards and maintain track of product expiry usages and disposal.

Maintenance Engineer, 12/2017-01/2021

Sri Damodaram Sanjeevaiah Thermal Power Plant - Nelatur, India

- Installing, maintaining, and repairing machinery and circuits according to electrical plans and specifications.
- Inspecting machinery and circuits to identify any faults, malfunctions, or damage.
- Adhering to safety protocols and regulations to maintain safe working environment.

EDUCATION

M.Eng. Electrical and Computer Engineering (Thesis)

Lakehead University, Thunder Bay, Ontario, Canada | Apr 2023

Carried out extensive research on multilevel converters, transformers, and various power electronics concepts for an efficient power generation and published an IEEE thesis.

B.E Electrical And Electronics Engineering

Sri Krishna College of Engineering And Technology, Coimbatore, India | Apr 2018

SKILLS

- **E&I Engineering:** Power distribution, control systems, instrumentation design
- **Industrial Automation:** PLC/DCS programming, commissioning, QA/QC
- Training and Mentoring.
- Proficient in high power and AC/DC systems.
- Strong compliance with IEEE and Ontario electrical safety standards and WHMIS.
- Technical Troubleshooting and Analysis.
- Detail oriented and precision.
- Microsoft Tools, Automation tool, etc.
- Proficient in [MATLAB, LabVIEW and Auto-CAD].

PUBLICATIONS

- Dekka, A., Selvaraj, M., "Voltage Balancing of a New Five Level Multilevel Inverter with a Modified Carrier Pulse Width Modulation Scheme". IEEE Applied Power Electronics Conference & Exposition, Mar 2023.
- Selvaraj, M., et.al., "Harmonics Analysis and Estimation of THD using Virtual Instruments and PIC Micro-Controller". National Conference on Modernization in Engineering Science, Mar 2017.

Certifications

- Standard First Aid and CPR.
- Fork lift and scissor lift
