Education

Doctor of Philosophy in **Computer Science**
George Mason University, Fairfax, Virginia
Advisor: Dr. Gheorghe Tecuci
2021 - 2025 (In progress)
GPA: 3.9/4.0

Master of Science in **Data Analytics Engineering**
George Mason University, Fairfax, Virginia
2019 - 2020
GPA: 3.97/4.0

Master of Science in **Computer Science and Telecommunication**
Université Paul Sabatier, Toulouse, France
Research Report: "Search for key expressions characteristic of the interaction between speakers in audiovisual documents." / irit.fr
Advisor: Dr. Isabelle Ferrané
2010 - 2011

Master of Science in **Software Engineering**
Ecole Supérieure d'Infotronique d'Haiti, Port-au-Prince, Republic of Haiti
2008 - 2010

Engineering Degree (5-year program) in **Electronic Engineering**
State University of Haiti, Port-au-Prince, Republic of Haiti
2002 - 2007

Certificate in **Data Science**
Georgetown University, Washington, DC
2016 - 2016

Work Experience

Instructor

George Mason University, Fairfax, Virginia

Department of Computer Science / College of Engineering and Computing

August 2024 - Present

Teach Data Structure CS 310 to 2 sections at Higher Division Undergraduate students (~200).

Graduate Teaching Assistant / Graduate Lecturer

George Mason University, Fairfax, Virginia

2020 - 2024 (5 years)

- **As main Instructor** for CS 211 (Object Oriented Programming): taught undergraduate students key concepts and skills such as classes, interfaces, inheritance, polymorphism, debugging techniques, and unit testing, during the terms Spring, Summer, and Fall 2023.
- **Teaching assistant** for CS 504, CS 112, CS 310, and CS 584. Helped undergraduate and graduate students understand concepts from those courses: Data Structure using OOP (Java), Data Management / Data Mining Principles, Introduction to Computer Programming using Python and Advanced Data Mining. Provided feedback to students to facilitate learning.

Member of Learning Agent Center

George Mason University, Fairfax, Virginia

2022 - Present (2 years)

- Conducted research projects focusing on Explainable AI, Cogent Reasoning, and NLP.
- Conducted research survey on the use of Neuro-Symbolic Learning in the context of 3rd wave AI.

Deputy Director

Banque de la République d'Haïti, Credit Bureau Department, Republic of Haiti

2021 - 2023

IT and Operations Manager

Banque de la République d'Haïti, Credit Bureau Department, Republic of Haiti

2013 - 2021

- Managed and implemented projects for new data products such as improved credit reports, credit alerting, and portfolio monitoring.
- Collaborated with external consultants, internal central bank IT department and Morocco Credit Bureau for ISO-27001 compliance.
- Participated in the hiring process and evaluation of Data Analyst and Database Administrator in order to face new challenges and more complex data engineering projects for that newly created department of the Central Bank.
- Supervised and evaluated the performance of the IT and Operations Department employees.
- Improved operational processes such as dispute resolution, data quality control resulting in a 90% improvement in successful credit file submissions and dispute resolution process.
- Organized workshops and training for data providers from external institutions to enhance data submission processes and validation rules.
- Collaborated with the QA team, IT Department, and IFC/WorldBank Consultants resulting in a core solution to be ready on time for the official launch of the first Credit Reporting System in Haiti.

Programmer Analyst

Banque de la République d'Haïti, R&D Unit, Republic of Haiti

2008 - 2013

- Designed and implemented secure web-based applications to allow Government entities to have direct access to their account at the Central Bank of Haiti 24/7 using technologies like Oracle, Java, Tomcat, Struts, Javascript, CSS, PKI Infrastructure, e-Token;
- Designed and implemented software that collects financial data from IMF (balance sheets) and automatically generates financial reports (statement, financial ratios) that result in making regulatory inspections easier using tools like Netbeans platform, Java, Oracle RDBMS, Persistence JPA, NoSQL.
- Wrote software documentations from SRS end-user needs to user guides using UML diagrams.
- Developed innovative solutions to meet users' needs from different departments of the Central Bank and other financial institutions.

Licenses and Certifications

Data Analysis for Social Scientists - Massachusetts Institute of Technology (via EdX)

Data Science - Georgetown University School of Continuing Studies

Datos para la efectividad de las políticas públicas - Inter-American Development Bank

Project Management Skills for Success - Learning Tree International

Gestión Pública para el Desarrollo - Inter-American Development Bank

Gestión de Proyectos de Desarrollo - Inter-American Development Bank

Cyber Security Economics - Delft University of Technology

Technical Skills

Languages, proficient: Java, Python, C, C++, R, SQL, R

Language, familiar: Perl, PHP, NoSQL

Misc Skills: Project management, Conflict resolution, SDLC, Docker, Unix, Latex, HTML, Tableau, Oral and Written communication

Honors and Awards

Outstanding Graduate Teaching Assistant Award - Computer Science at GMU / May 2020

Washington Apple Pie Excellence Award - Washington Apple Pie / Nov 2021

ITU Youth Forum Fellowship - International Telecommunication Union / Haiti Representative / Dec 2006

Personal

Marital Status: Married

Work Authorization: Authorized to work in the US.

Languages: English (Fluent), French (Native), Haitian (Native), Spanish (Basic)
