Professional Summary

Experienced Senior Full-Stack Engineer with 12+ years of expertise in designing and delivering scalable, cloud-native platforms. Skilled in building high-availability microservices using Java, Spring Boot, and Kubernetes on AWS. Known for improving performance in complex distributed systems and mentoring teams toward technical excellence. Passionate about creating impactful solutions that blend performance, simplicity, and reliability.

Technical Skills

- Languages / Backend: Java (8–17), J2EE, Spring Boot, Apache Camel, Microservices
- Frontend: Angular 8, TypeScript, HTML 5, CSS 3, JavaScript, Node.js
- Cloud & DevOps: AWS, GCP, Azure, Kubernetes, Docker, Jenkins CI/CD
- Databases: Oracle, MySQL, MongoDB, Cassandra, Sybase
- Architecture & Design: Distributed Systems, Event-Driven Architecture, High-Throughput APIs
- Testing / Tools: JUnit, Mockito, Postman, JMeter, JProfiler, AppDynamics
- Collaboration: Git, Jira, Azure DevOps, Agile / Scrum delivery

Professional Experience

- Senior Software Development Engineer | Expedia Group — Gurgaon (2022 – Present)
 - Spearheaded backend design for Expedia's global ordering and booking services powering millions of users.
 - Achieved 30% reduction in end-to-end latency through optimized caching and tuned database queries.
 - Delivered microservices on AWS EKS ensuring 99.99% uptime for key booking APIs.
 - Guided a 15-member engineering team, raising delivery consistency and code health metrics.
 - Automated CI/CD with Jenkins and Kubernetes, trimming release times by ~40%.
- Technical Specialist | Fidelity International — Gurgaon (2021)
 - Created serverless APIs using AWS Lambda to streamline data integration pipelines, reducing manual effort by 40%.
 - Developed Spring Boot-based risk-analysis modules for real-time investment operations.
- Associate – Aladdin Product Group | BlackRock — Gurgaon (2018 – 2021)

- Engineered compliance APIs supporting \$21T+ global asset operations.
- Accelerated data queries by 50% via distributed caching and query refactoring.
- Overhauled build-and-release automation to cut deployment duration from multiple days to a few hours.
- R&D Developer | Amdocs — Gurgaon (2017 – 2018)
 - Built modular microservices for the Optima Billing suite, improving system efficiency by 20%.
 - Designed automated test frameworks that halved QA verification cycles.
- Web Developer | Tata Consultancy Services (TCS) — Gurgaon / London (2013 – 2017)
 - Delivered account and payment services for Lloyds Commercial Banking digital platform.
 - Diagnosed and optimized performance bottlenecks using AppDynamics & JProfiler, boosting response by 20%.
 - Acted as on-site SPOC in London, enabling seamless coordination between client and offshore teams.

Education

M.Tech (Hons.) in Software Systems, BITS Pilani (CGPA 7.7)

B.Tech (Hons.) in Electronics & Communication, Guru Nanak Dev University (76.7%)

Certifications

Google Cloud – Professional Cloud Architect

Oracle Certified Java Programmer (SE 1.6)

Oracle Certified Web Services Developer

Achievements

- Commended by Expedia leadership for end-to-end ownership of global booking workflows.
- Received TCS ILP Kudos Award — top recognition among 300+ associates.
- Acknowledged by Lloyds Bank and Indian Railways for impactful technical delivery.
- Organized and led National Tech Fest (ENLIVENEA) as chief web design coordinator.
