EDUCATION

Seneca Polytechnic

Diploma in Computer Programming

Toronto, Canada

Dec. 2023

SKILLS

Programming: C, C++, JavaScript, React, Next.js, Python, MongoDB, WebAPI, Layouts, Handlebars, Routes, API Integration, Agile Methodologies, OracleSQL

ACADEMIC PROJECTS

React/Next.js – WebAPI + User Functionality

Sept 2023 - Dec 2023

- **API Development:** Created a Web API using MongoDB
- **Website Development:** Designed a responsive user interface featuring:
 - Layouts and navigation bar
 - Search and favourites functionality
 - User Registration and search history tracking

C/C++

May 2023 - Jul 2023

- **Object-Oriented Programming:** Applied OOP principles including encapsulation, inheritance and polymorphism.
- **Data Structures:** Utilized arrays, linked lists, stacks, and queues for efficient data management.
- **Memory Management:** Implemented dynamic memory allocation, deallocation, and utilized smart pointers.
- **Algorithm Development:** Designed and optimized algorithms for sorting, searching and data manipulation.
- **File Handling:** Managed file input/output operations for data storage and retrieval
- **Concurrency:** Developed multi-threaded applications to improve performance.
- **Error Handling:** Implemented robust error detection and exception handling mechanisms.

Python – Data Structures

May 2023 - Jul 2023

- **Data Structures:** Proficient in using lists, dictionaries, sets, tuples, custom data structures.
- **Algorithm Development:** Designed and implemented algorithms for sorting, searching, and data processing.
- **Recursion:** Applied recursive techniques for problem solving and algorithm design.
- **Time Complexity Analysis:** Evaluated and optimized algorithms by analyzing their time complexity to ensure they run efficiently, even with large data sets.
- **Space Complexity Optimization:** Reduced memory usage by optimizing data structures and algorithms to be more space efficient.

EXPERIENCE

Brampton Golf Range

Cashier/Customer Service

Jun 2009 – Present

- Maintained positive customer experience by providing exceptional service through addressing customer concerns and inquiries promptly and efficiently.
- Managed over 50 financial transactions daily while resolving any disputes to reach a satisfactory conclusion for both the business and happy customer.
- Ensured a clean and exceptional facility by restocking and tracking inventory

Captains Boil

Manager

May 2017 – Jul 2019

- Managed a high volume dining establishment with a strong background in team leadership, customer service and operational efficiency.
- Lead and trained employees to follow guidelines for an excellent customer experience.
