ABOUT MYSELF

Seasoned web application developer with a robust seven-year tenure specializing in **Java**, **Spring Boot**, and **Microservices**. My technical acumen also encompasses front-end development with proficiency in **Angular**. Skilled in the intricacies of the FinTech and Immigration sectors, I have a broad command over a variety of technologies. With a steadfast commitment to continuous improvement, I am always on the lookout for innovative technological solutions. My pivotal role emphasizes the importance of rigorous development protocols, strict adherence to coding standards, and meticulous testing to deliver excellence in every project.

DIGITAL SKILLS

Java / Spring (Spring Boot, Spring Data, Spring Security) / Microservices / Maven / JPA (Eclipselink, Hibernate) / Git / REST API / Oracle PL/SQL, Oracle DB / Angular Framework (TypeScript) / Basic Kafka knowledge / Redis / Elasticsearch / Jenkins / REST / PostgreSQL / Version Control System (Git) / MySQL / SQL / AWS / JSON / Jira / Agile-Scrum / Spring Security / JWT / Authentication (JWT, OAuth2, OpenID, ...) / Docker / Basic knowledge of Kubernetes / AWS (ECS, EKS, RDS, S3) / Team Player / Time Management / Attention To Details / Communication Skills / Keycloak / OIDC / Attention to Details / Methodical Problem-Solving / Diagnostic Thinking

WORK EXPERIENCE

Senior Software Engineer

emaratech Emarat Technology Solutions [Feb 2023 – Current]

City: Dubai | **Country:** United Arab Emirates | **Website:** www.emaratech.ae | **Name of unit/department:** Software Manufacturing Department

- Proactively participated in all development stages, from solution design to implementation and testing in an **agile environment**.
- Developed and deployed the Visa Application Processing System which is used by thousands of people across the world.
- Utilized **Angular** for the frontend and **Java**, **Spring Boot**, **REST APIs**, and **Microservices** for the backend.
- Implemented an **event-driven architecture** using **Kafka** to handle over 20 million applications annually, significantly enhancing system efficiency and scalability.
- Continuously shipped high-quality, **testable code**, enhancing the reliability of visa application services on the Dubai Now platform.
- **Awarded the GEM (Going the Extra Miles) Award** for delivering the visa system ahead of schedule, reducing processing time, and enhancing automation.

Senior Software Engineer

Seamless Distribution Systems [Aug 2021 – Jan 2023]

City: Lahore | **Country:** Pakistan | **Website:** www.seamless.se | **Name of unit/department:** Team Euphoria

- Served as the Payout Module Owner for a tailored Campaign Management System. Developed the system utilizing **Java**, **Spring Boot**, and **Microservices** architecture for efficient performance.
- The system implementation has **efficiently assisted** clients in **managing campaigns and payouts**, leading to a **substantial increase in overall profits** and **improved system usability**.

- Created Business Intelligence reports employing **Groovy** scripts, Java, ELK stack (**Elasticsearch**), and Spring Boot.
- The generated reports play a crucial role in enabling our clients and internal teams to **comprehend various metrics**, including daily, weekly, monthly, quarterly, bi-annual, and annual **sales, profits, and system usage**. This information **facilitates swift decision-making**, contributing to a proactive approach to **increasing sales and profitability**.

Java Developer

Nagarro MENA LLC [Feb 2021 – Jul 2021]

City: Dubai | Country: United Arab Emirates | Website: www.nagarro.com

- Led the backend development (REST APIs) for a Bank's Mobile Application, employing **Java, Spring Boot**, REST APIs, **Microservices** architecture, and Redis for a robust and efficient system.
- The newly developed system **replaced the client's legacy system**, significantly **enhancing end-user satisfaction** through **improved speed and ease of use**, ultimately attracting a larger user base.
- Contributed to the development of the internal product, a Back-office portal, crafting services with **Java, Spring Boot**, and **Angular** framework.

Software Engineer

Telenor Microfinance Bank Ltd [Mar 2020 – Jan 2021]

City: Lahore | Country: Pakistan | Website: www.easypaisa.com.pk | Name of unit/department: easypaisa

- As a Backend Engineer for the mobile wallet "Easypaisa," contributed to system development using **Java, Spring Boot**, Redis, MariaDB, and **Microservices** architecture.
- Designed and deployed an internal "Issue Ticketing System" using **Angular** for frontend and **Java with Spring Boot** for backend. The system **efficiently managed and resolved internal issues** through automated escalations.
- Engaged in L2 support for a brief duration, ensuring **smooth operational efficiency**.

Software Engineer

Ascertia (Pvt) Ltd [Mar 2019 – Mar 2020]

City: Lahore | Country: Pakistan | Website: www.ascertia.com | Name of unit/department: ADSS

- Contributed to the development of modules within a Public-Key Infrastructure solution using **J2EE** technologies. The front end was developed using **JSP**.
- Engaged in the implementation and enhancement of the ePassport system. The system is **currently operational** in an African country.

Software Engineer (J2EE)

Novapex Software Technologies [Feb 2018 – Oct 2018]

City: Lahore | Country: Pakistan | Website: www.novapextech.com

- In a contractual role, spearheaded the automation of manual SMS and email tools by utilizing **Java** and **Spring Boot** for backend development and **JSP with Thymeleaf** for frontend implementation.
- Proficiently generated Business Intelligence reports and crafted a **tax calculator** tailored for a German client using **Java, Spring Boot**, and **Angular** framework.

Software Engineer

Tower Technologies (Pvt) Ltd. [Feb 2017 – Jan 2018]

City: Lahore | Country: Pakistan | Website: www.thetowertech.com | Name of unit/department: Team Java

- Started as an intern, acquiring hands-on experience with **Java, Spring MVC, JSP**, Oracle 10g, iReport, and JasperReport. Developed new modules and improved existing ones for campus management systems.
- Engaged in diverse tasks, significantly contributing to enhancing the web application. Proactively addressed and resolved problems and requirements reported by clients.

EDUCATION AND TRAINING

Bachelor of Science in Computer Science

Capital University of Science & Technology [Feb 2012 – Jan 2016]

City: Islamabad | Country: Pakistan | Website: www.cust.edu.pk | Level in EQF: EQF level 6

HONOURS AND AWARDS

[Oct 2023] emaratech Emarat Technology Solutions

GEM (Going the Extra Miles) Award

Deeply honored to receive the award from His Excellency Thani Al Zaffin, Group CEO of emaratech, in recognition of the successful accomplishment of delivering the Visa Processing System well ahead of the deadline.
