PROFILE

Engineer graduate with significant experience in FullStack development using **JAVA SPRING and ANGULAR**. I am seeking a new challenge as a developer.

Passionate about **Cloud Computing** and **DevOps**, I am constantly looking to enhance my skills in these areas. I am proactive, highly autonomous, and curious.

KEY TECHNICAL SKILLS

Backend Development

- Java Core / Spring Framework / Microservices with Spring Cloud
- Spring Boot 3, Spring MVC, Spring Security, Spring REST, Thymeleaf
- Spring Data JPA & JDBC, Hibernate, Apache Kafka, RabbitMQ, Spring WebFlux, Open API
- Secure REST APIs with Spring Security, JWT, OAuth2, OpenID Connect, Keycloak, Spring Authorization Server

Frontend Development

- Angular 16, TypeScript, JavaScript, HTML5, CSS3
- Angular Material, NGRX, Ng-Bootstrap

Databases

- PostgreSQL, MySQL, MongoDB

DevOps & CI/CD

- Jenkins, Docker, Jib, Kubernetes, Maven, Git, GitHub, CI/CD Pipelines

Cloud Computing

- AWS Services : EC2, ECS, S3, RDS, ELB, EBS
- Infrastructure setup, configuration, and deployment of cloud-based applications

Software Development & Agile Methodologies

- Strong experience in **Agile methodologies (Scrum, Kanban)** with **daily stand-ups, sprint planning, and retrospectives**.
- Use of Agile tools such as **Jira, Confluence, and GitLab** for project tracking and backlog management.

Software Architecture

- Microservices, REST APIs, SOAP, GraphQL, gRPC, Clean Architecture, DDD

Testing & Quality Assurance

- TDD, BDD Style, Integration Testing, Unit Tests
- JUnit, Mockito, Test Containers

Design Patterns

- Singleton, Strategy, Decorator

PROFESSIONAL EXPERIENCE

Software Developer

Jan. 2017 – A présent

Publicis Africa Group (AG Partners)

Project : Web and mobile application for managing a savings product that allows the diaspora to open savings accounts in their home country.

Technical Stack : Java 11, Spring Boot, Spring Cloud, Spring Security, JDBC Template, Spring Data JPA, Hibernate, Angular 16, GitLab, Jenkins, Terraform, Maven, Docker, TDD, JUnit5, Mockito, Kubernetes, JMeter, PostgreSQL

Responsibilities :

- **Agile Development & Team Collaboration**
 - Worked in a Scrum team with 2-week sprints, daily stand-up meetings, and sprint reviews.
 - Actively participated in **sprint planning, backlog grooming, and retrospectives**.
 - Used **Jira and Confluence** to track progress and manage sprint deliverables.
- **Software Architecture & Solution Design :**
 - Analyzing project requirements and designing scalable, secure, and high-performance technical architectures.
 - Creating UML diagrams to model software components and data flows.
- **Microservices Development & Management :**
 - Implementing inter-service communication using RestTemplate, WebClient, and Spring Cloud OpenFeign.
 - Setting up **service registry and discovery** with Spring Cloud Netflix Eureka.
 - Implementing **load balancing** with Spring Cloud LoadBalancer.
 - Using **Spring Cloud Gateway, distributed tracing, resilience4j, and circuit breaker patterns**.
- **Frontend Development**
 - Building dynamic and responsive UIs with **Angular 16** in close collaboration with UX/UI designers.
 - Developing reusable components with **HTML5, CSS3, and Bootstrap**.
 - Creation of modules, controllers, directives, and services to implement application features
- **Database & Messaging System :**
 - Designing the DAO layer using Spring Data JPA and JDBC Template.
 - Implementing Kafka as a message broker for asynchronous communication between services.
- **API Documentation & Testing :**
 - Documenting REST APIs with OpenAPI.
 - Writing unit and integration tests using JUnit, Mockito, and Test Containers.

FORMATION

Ingénieur de Conception en Informatique (Bac +5)

Institut d'Ingénierie Informatique de Limoges en Afrique centrale 2010 - 2013
2010-2013

DEUG (BAC+2) En Sciences Mathématiques

Université de Yaoundé 1 (Cameroun) 2005 - 2010

Baccalauréat Scientifique (BACC)

Lycée Général Leclerc (Cameroun) 2005

LANGUES

- Français : Maternelle
- Anglais : Intermédiaire
