Profile

Software developer with a few years of experience, I have knowledge in full stack as well as cloud. Being curious by nature and self-taught, I familiarize myself quickly with new technologies, which pushes me to seek new challenges and develop my skills. I am on the lookout for new developments in the field and do not hesitate to use AI as an intelligent productivity multiplier.

Education

Bachelor of Software Engineering

École de technologie supérieure (ÉTS)

Since 08/2021 | Montreal

Embedded Systems (IoT), DevOps, Design & Object-Oriented Architecture, Software Development

Multimedia Integration Techniques

Collège Maisonneuve

2021 | Montreal

Computing, Web Development, Video Games

Professional Experience
