RATIONAL UNIFIED PROCESS (RUP), UML
VISUAL STUDIO & VISUAL STUDIO CODE

WORK EXPERIENCE

MAY 2023 – PRESENT

MOBILE SOFTWARE DEVELOPER, FITIV - MotiFIT Fitness Inc.

- Consistently building, testing, and releasing new features and fixes for Android and iOS applications, including working with beta features/APIs still in development by Apple.
- Independently manage full-cycle projects, including mock-ups, feasibility research, design, timelines, front-end and back-end implementation, testing, release, and post-release monitoring. Regularly entrusted to handle complex issues and deliver solutions autonomously.
- Experience working with cloud functions using Node.js to support mobile application features and backend workflows.
- Hands-on experience with hardware integrations across Android and iOS platforms, including BLE devices, Wear OS, and watchOS.
- Collaborate within a cross-functional team through weekly development meetings, daily pull requests, and clear communication via Slack, Jira, and email.
- Advocate for code quality and efficiency, consistently identifying opportunities to optimize existing features while addressing user pain points.
- Experience in multithreaded programming to ensure high-performance, responsive mobile applications. Successfully implement background tasks, asynchronous operations, and threading techniques for optimized app performance.
- Monitor and analyze Android and iOS crash reports using tools like Firebase Crashlytics, systematically identifying and fixing high-impact issues, resulting in a measurable increase in app stability and user satisfaction.
- Leverage AI tools to accelerate problem-solving, learn new technologies efficiently, and identify innovative solutions to complex development challenges.

■ MARCH 2020 – MARCH 2021

JUNIOR PROJECT ESTIMATOR, ARSENAULT BROS. CONSTRUCTION

- Prepared multiple quantity take-offs and quotations ranging anywhere from 5,000\$-1,000,000\$+ on a weekly basis.
- Prepared Material lists, scheduled site visits and various other office duties while managing a busy work schedule.
- Regular communications with general contractors, estimators and suppliers by phone or email.
- Delivered/Purchased tools, supplies and materials for workers on site on a daily basis.
