

Sina Khalili

Vancouver, BC

sinakhalili@outlook.com — sinakhalili.com — github.com/sinakhalili

Profile

Software engineer with 5+ years of experience building trading systems, data pipelines, and backend infrastructure in remote startup environments. Strong background in Python, SQL, and system design with hands-on experience in market making, automated trading, and production system reliability.

Experience

Software Engineer

Drift Labs

Remote

Jan 2024 – Present

- Built and maintained Python SDKs and internal tooling for on-chain trading infrastructure.
- Developed data pipelines to ingest, process, and analyze large volumes of market and trading data.
- Designed analytical dashboards using Streamlit to support trading, risk monitoring, and operational visibility.
- Contributed to market making systems and automated trading bots with focus on reliability and risk controls.

Software Engineer

Fintechwerx (Stealth Startup)

Remote / Vancouver, BC

April 2023 – Present

- Designed and maintained data-backed systems supporting over 50 production ecommerce properties.
- Built automation scripts to migrate data, reconfigure infrastructure, and manage system state across environments.
- Managed servers, databases, DNS, and hosting infrastructure with focus on uptime, performance, and security.

Software Engineer (Co-op)

Sony Pictures Imageworks

Vancouver, BC

Jan 2021 – May 2021

- Designed and deployed internal web-based system to centralize company documentation.
- Developed Python crawlers to extract and structure data from unstructured internal sources.

Education

Bachelor of Applied Science

2017 – 2023

Computer Science

Simon Fraser University, Burnaby, BC

- **Tools & Infrastructure:** AWS, Django, React, Git, REST APIs, automated testing

Notable Projects

Van Kino Calendar kino.sina.town

Vancouver film listings aggregator (React, TanStack Router)

Mini Crossword Stats sinakhalili.com/projects/crossword

NYT Mini Crossword stats and leaderboard that had 50+ DAUs at its peak (Next.js, Supabase)

Technical Skills

- **Languages:** Python, SQL, JavaScript, PHP
- **Data & Trading:** Market making systems, automated trading, data pipelines, risk monitoring
