Permanent Resident of Canada / Open to Relocation

Professional Summary

Software Engineer with over three years of professional experience in diverse industries including automotive and electronics. Proficient in developing and validating control-command systems, creating algorithms, and ensuring compliance with industry standards. Skilled in Model-Based Design, MATLAB/Simulink, C, C++, and Python. Fully authorized to work in Canada and highly motivated to contribute to innovative engineering challenges.

Skills

- **Software Tools:** MATLAB/Simulink, DOORS, Jira, Jenkins, SVN, ETAS ASCET, Automation Studio, Git, Altium, Linux, Quartus
- **Programming:** C, C++, Python, VHDL
- **Languages:** French (Fluent), English (Professional)

Work Experience

Software Engineer | Hitachi Astemo | Paris, France

Dec 2023 - Present

- Responsible for specification, development, and testing of control software for automotive brake systems.
- Develop control strategies and wrote software requirements.
- Ensure adherence to ISO26262 and ASPICE standards.
- Follow up on validation, verification, and issue analysis.

Software Engineer | Expleo | Paris, France

Mar 2022 – Nov 2023

- Designed automotive algorithms for diesel depollution systems.
- Developed and integrated control-command functions using MATLAB/Simulink.
- Validated models via MIL and SIL simulations.
- Defined validation plans and supported HIL/vehicle validation.
- Conducted bug analysis and requirement compliance checks.

Mechatronics Engineer (Internship) | Faurecia Clean Mobility | Bavans, France

Jul 2021 – Dec 2021

- Enhanced SCR systems for nitrogen oxide reduction.
- Applied Model-Based Design via MATLAB/Simulink.
- Performed MIL/SIL validation.
- Created HMIs with Automation Studio.

Electronics Engineer (Internship) | BERNARD CONTROLS | Paris, France

Apr 2020 – Aug 2020

- Designed an electronic signal continuity board.
- Managed hardware design using Altium and conducted component selection and PCB routing.
- Developed complementary software and technical documentation.
- Performed functional testing for reliability and performance.

Education

Engineering Degree in Electronics | ECE Paris | Paris, France | Dec. 2021
