

Daniel Fernando Flórez Sánchez

Telecommunications Engineer

Carrera 69b # 25-70, Los Andes 1, Bogota DC | daniel.florez.0312@gmail.com | +57 3004182112 (Whatsapp).

Closed work permit valid in Ontario until November 2026.

RESUME

Telecommunications Engineer from UNAD (National Open and Distance University). I am a dynamic and honest person, with skills in finding effective solutions, great availability for teamwork, and interpersonal and customer relations skills, with an aptitude for continuous learning and easy adaptation to change.

I currently work as a Senior Support Engineer Data Centers dedicated to projects related to data centers and wireless solutions. My main focus is on network optimization and complex technical problem solving, helping to ensure the quality and performance of technological infrastructures.

With experience in the telecommunications sector, I have worked on the implementation and modernization of 2G, 3G, 4G, and LTE networks in Colombia, the USA, and Canada, as well as on the installation and configuration of advanced wireless and networking equipment. My goal is to provide specialized and efficient technical support while contributing to the development of innovative solutions in the field of telecommunications technology.

PROFESSIONAL EXPERIENCE

*Senior Networking Support Engineer
Master in Data Center | Ikusi
Colombia*

Aptil 2025 - Present

- Installation, configuration, and on-site support for Cisco active devices, switches, routers, ACI, Nexus, and Catalyst in various projects. Support and troubleshooting in the data center, adding new services at the logical and physical levels.

Wireless Engineer | Huawei | Colombia

August 2024 - April 2025

- Wireless network engineer, responsible for monitoring and supporting the installation and integration of upgrades in the implementation of sites for Movistar and Tigo Colombia operators throughout the country, creating template files for voice and data testing in different UMTS, LTE, and the new 5G implementations.

RBS Field Engineer | Yupana Inc | Canadá

January 2023 - November 2023

- Field work for Rogers Canada Operator performing installation and maintenance, coordinating work groups to upgrade active and passive equipment on external networks, installing line extenders, trunks, fiber optic and coaxial nodes, monitoring construction standards, configuring line extenders, trunks, and nodes with: OneExpert CATV (ONX-620 or ONX-630).

Installation Engineer | Roaming Networks Inc | USA

December 2021 - November 2022

- Complete base station installation for AT&T 3G, LTE, and 5G Ericsson implementation, interpretation of site plans and final upgrade documentation on platforms, new technology updates with AT&T, LTE update, new 5G installation; Swap and optimization of AT&T site upgrades (LTE700//850/1900/2100/2300). Troubleshooting alarms (VSWR, PIM, fiber loss, RETs, RSSI).
- Install 5G AIR6449 B77D antennas (Ericsson); RRU 32 B2, RRU 4478 B12A, RRU 4478 B14.

Project Implementation RF, Modernization Nokia, Troubleshooting | OSC Top Solutions | Colombia.

May 2018 - January 2021

- Implementation and modernization for Nokia-Claro 700 MHz band (LTE700) complete site, installation of multiband antennas, DC cabling, AWG cabling, fiber optics. Unification of sectors and technologies: GSM 3G, 4G LTE, Flexi Multiradio 10 Nokia, Single RAN, Airscale. Attention and resolution of power failure, RF, and TX alarms.

- Installation, configuration, and troubleshooting of microwave links using different technologies: Ericsson, Nokia, Nera Evolution, SAF. Configuration and installation of active equipment from Cisco, Huawei, Raisecom, and Grandstream IP telephony, troubleshooting of all types of faults for last mile fiber optic and radio links.

Tech Support | Sitcom | Colombia

September 2012 - March 2015

- Installation and configuration of the Alcatel Lucent router for fiber optic data transmission and connection of the rings to centralize the Claro and Movistar base stations throughout the departments of Santander and Boyacá. Installations carried out from the laying of electrical wiring and grounding in the PDB, PDB connection, complete configuration of active equipment: Alcatel 7705 SAR-8, Alcatel 7705 SAR-M, Alcatel 7750 SR-C-12, Alcatel 7750 SR-12, Alcatel 7750SR.7.
- Implementation of BTS, GSM, UMTS, LTE, transmission, crossovers, radio frequencies, installation and maintenance of HUGHES and VISTA GILAT satellite links, and DIGI GPRS technology modems for data transmission from the VIA BALOTO network throughout the Santander region, certification obtained by G-TECH CORPORATION COLOMBIA LTDA.
- Preventive and corrective maintenance of Avaya IP telephony servers and gateways, s8300c and s8300D servers, and IP telephone installations and telephony plants.
- Installation and configuration of GPRS technology for data transmission and backup of ATH offices and ATMs with DEABOLD.

Tech Support | ANS Comunicaciones | Colombia

January 2011 - August 2012

- Server administration, wired networks, Wi-Fi, LAN networks. Installation of satellite antennas, Idirect and Direcway technologies for internet, SAF microwave links, router configuration, switch, access point. Administration and installation of UBIQUITI equipment; technical support for LAN and WAN networks.

EDUCATION

Ingeniero de Telecomunicaciones | 2019

Universidad Abierta y a Distancia (UNAD).

Tecnología en administración de redes de computadores | 2011

SENA

Bachiller Académico | 2008

Colegio Técnico Industrial Jose Elias Puyana.

INFORMATION ADD

Languages: Spanish Native

Certifications: Renovación CCNA (En curso). CCNA Exploration: Network Fundamentals, CCNA Exploration: Routing Protocols and Concepts, CCNA Exploration: LAN Switching and Wireless, CCNP R&S SWITCH: Implementing IP Switching, CCNP R&S ROUTE: Implementing IP Routing. Certification Nokia License to Work (LTW). ID Verification: 080489.

Certificaciones Internacionales: Certify Working at Heights Training, regulations for construction projects 213/91, Driver License Class DZ (Ontario Canadá). Osha 10 Construction Safety and health, Competent Rigging, Aerial Lift Operations, Capstan Hoist Operations, Climber Rescuer - Tower climbing safety, NFPA 70E Low Voltage Qualified Person.
