Professional Summary

Network Administrator / Network Support Professional with a Master's degree in Internetworking. Hands-on experience in designing, configuring, and troubleshooting LAN, WAN, and VLAN networks. Skilled in routing protocols (RIP, OSPF, EIGRP), TCP/IP, DHCP, DNS, and network security fundamentals. Experienced with Cisco Packet Tracer, GNS3, and Wireshark for network simulation, packet analysis, and performance optimization. Proven ability to monitor and maintain secure network environments, document incidents, and resolve connectivity and routing issues. Strong collaborator with excellent problem-solving, attention to detail, and adaptability in fast-paced technical settings.

Professional Experience

Proctor

Dalhousie University – Halifax, NS | 2024 – Present

- Supervised in-person and computer-based examinations in accordance with university policies and academic integrity standards.
 - Verified student identification and authorized access prior to exam sessions.
 - Provided clear instructions regarding exam procedures, rules, and time limits.
 - Continuously monitored exam environments to prevent misconduct and ensure a quiet, distraction-free setting.
 - Distributed, collected, and secured examination materials with strict confidentiality.
 - Responded to student inquiries and escalated procedural or technical issues when required.
 - Accurately documented and reported exam irregularities, incidents, or system issues.
-

Teaching Assistant – Network Architecture

Dalhousie University – Halifax, NS | 2024 – 2025

- Assisted the professor in delivering course content on network architecture, routing, switching, and network protocols.
- Guided students in lab exercises using Cisco Packet Tracer and GNS3, helping them design and configure networks.

- Provided troubleshooting support and explanations for TCP/IP, VLANs, DHCP, DNS, and routing concepts.
 - Graded assignments, lab reports, and projects, ensuring accuracy and adherence to course requirements.
 - Conducted review sessions and one-on-one support to clarify complex networking concepts.
 - Developed mentoring, communication, and leadership skills while reinforcing technical knowledge.
-

Software Quality Engineer

Samsung India Electronics Pvt. Ltd. – Noida, India | 2012 – 2015

- Conducted end-to-end testing of mobile devices across hardware, software, and network layers.
 - Diagnosed network-related issues including call drops, call failures, latency, and connectivity problems.
 - Analyzed interaction between devices and underlying network infrastructure.
 - Performed manual and automated testing on multiple software builds prior to release.
 - Monitored performance metrics and validated network behavior under various conditions.
 - Documented test cases, results, and troubleshooting steps for engineering teams.
 - Collaborated with R&D and product teams to resolve critical technical issues.
 - Assisted in coverage planning and drive testing for unmapped or low-signal areas.
-

Team Lead

Graphic House – Ambala, Haryana, India | 2018 – 2021

- Led and coordinated a team, managing schedules, task assignments, and deliverables.
 - Ensured adherence to processes, quality standards, and deadlines.
 - Maintained structured documentation and progress reports.
 - Developed leadership, communication, and coordination skills applicable to IT teams.
-

Network & Internetworking Projects

- Designed and simulated multi-router networks using Cisco Packet Tracer and GNS3, implementing RIP, OSPF, and EIGRP.
- Configured VLANs and inter-VLAN routing with proper IP addressing and DHCP services.
- Analyzed TCP/IP and OSI layer operations using Wireshark, capturing packets to study protocol behavior.

- Conducted TCP vs UDP performance tests, including packet loss and latency scenarios.
 - Performed network troubleshooting and packet analysis, identifying and resolving connectivity and routing issues.
 - Documented all configurations, network diagrams, and test results for analysis and reporting.
-

Education

Master of Engineering – Internetworking, Dalhousie University, Halifax, NS | 2023 – 2025

Bachelor's Degree – Computer Science, Kurukshetra University | 2015 – 2018

Polytechnic Diploma – Computer Science, HSBTE | 2009 – 2012

Technical Skills

- TCP/IP, DNS, DHCP, ARP, VLANs, Subnetting, NAT, PAT, Port Forwarding
 - Routing Protocols: RIP, OSPF, EIGRP, MPLS, BGP, Inter-VLAN Routing, STP
 - LAN, WAN, VPN (Site-to-Site & Remote Access), Wireless Networks (Wi-Fi, 802.11 standards)
 - Firewall basics, ACLs, Packet Filtering, IDS/IPS concepts, Network Monitoring
 - Network Troubleshooting: Wireshark, Ping, Traceroute, Nmap
 - Cisco IOS (CLI), Router & Switch Configuration, Switchport Security, VLAN Configuration, QoS Basics
 - Linux (basic commands, networking tools), Windows Server (Active Directory, DHCP, DNS basics), VMware Basics
 - Python (basic), Network Automation Scripts, Bash Scripting
 - Cisco Packet Tracer, GNS3, PuTTY
 - Network Design & Topology Planning, Performance Optimization, Network Troubleshooting, Documentation & Reporting
-

Soft Skills

- Problem-solving
 - Communication
 - Attention to detail
 - Time management
 - Team collaboration
-

Achievements

- Excellence Award – Samsung (2014)
- Maintained 100% accuracy in incident reporting and documentation
- Consistently ensured reliable monitoring in controlled environments
- Awarded scholarship in every course during Master's in Internetworking at Dalhousie University
- Achieved A+ grade in Network Architecture and Telecom courses
