VMware Specialist | Infrastructure Platform Engineer

Executive Summary

- **10 years** of experience in VMware vSphere, Operating System, Application & IT Infrastructure - design, implementation, administration, maintenance and support.

Technical Proficiency

- Virtualization: VMware vSphere 5.5, 6, 6.5, 6.7, 7 and 8
- Hardware: Dell, Cisco, HPE
- Automation: vRA, vRO
- Monitoring tool: vROPS, PRTG
- Ticketing tool: JIRA, BMC Helix ITSM, ServiceNow ITSM
- SOP Updating: Confluence, SharePoint
- Operating System: Windows, Linux
- Backup and Restore tool: Avamar, Rubrik
- Patching tool: vCM, BMC, SCCM, Update Manager, Life Cycle Manager

Professional Experience and Accomplishments

1) ResMed Halifax ULC. - Halifax, Canada Infrastructure Platform Engineer | VMware Specialist

Aug 2024 - Nov 2025

VMware vSphere:

- Install, configure, update, upgrade and manage vSphere 6, 6.5, 6.7, 7 and 8 vCenter (includes embedded and external PSC) with around 200+ ESXi hosts & 3000+ Virtual Machines.
- Install, upgrade, update, configure, manage the ESXi (version 6, 6.5, 6.7, 7, 8)
- Configuring the vCenter (Creating Clusters, Datastores, Virtual Machines, Standard Switch, vMotion Network, Distributed Switch, Port Groups. Adding LUN to datastore & Host to Cluster. Licensing Hosts & vCenter. Resetting Hosts & vCenter Certificates. Creating users & roles and assigning them. Configuring HA, DRS, FT, EVC. Install & update VMware tools. Configuring VCHA. Creating VMs via Template, Clone, OVA, OVF and ISO. RDM Configuration with multi writer for virtual machines, Creating affinity and anti-affinity rules, Configuring VM startup/shutdown with ESXi host)
- Upgrade of VM Hardware, VMFS and vDS.
- Reconfiguration of VM's (CPU, Memory, Disk and Network, CPU/Memory hot plug enable) and taking snapshots.
- Disk cleanup of vCSA and extending disc space of its drives.
- Hot and Cold Migrations - P2V and V2V via VMware vCenter Standalone convertor, vMotion and Storage vMotion, via OVA and OVF export and import, Backup from one VC and restore it to another VC), Veeam Replication Tool.
- ESXi migrations from one vCenter to another and cross vCenter vMotion of VMs.
- Analyzing vCenter, ESXi and VM vulnerability and fixing it.
- Monitoring vCenter, ESXi and VM's and troubleshooting any kind of issues related to it.
- Repairing orphaned VMs, fixing disk consolidation error.

- VxRail upgrade
- Content library creation and subscription, Import templates and versioning.

Windows:

- Windows and Linux OS installation.
- Windows in-place upgrade and application installation.
- Local user creation and adding it to different groups such as Administrators, RDP users, etc.
- Adding a network or local printer to windows VM.
- Managing the NTFS permissions, network and shared drives.
- Checking logs via the event viewer.
- Monitoring the OS performance.
- Disk Cleanup and Disk Management.
- Adding server in domain/workgroup.

Monitoring, Managing & Capacity Planning:

- Managing Memory, CPU and Disk size of the existing VMware instances on ESXi servers based on usage patterns.
- Performed capacity planning and planned storage migration by using RVtools and Microsoft excel for a constantly changing environment that required storage.
- Coordinate with all departments to ensure the IT infrastructure meets their needs and suggest changes or improvements to the infrastructure as needed.
- Monitoring, managing and reporting daily, weekly and monthly server status.

Hardware:

- WebEx calls with VMWare, Cisco and Dell to troubleshoot Hardware issues and other related issues (P1 and P2 Cases).
- Taking start to end responsibility of part replacement like IOM, FI, PSU, Fan, DIMM, Disk, PERC battery, Motherboard etc (Analyzing the fault, raising vendor case, exporting and sharing logs, filling RMA, scheduling FE visit, gate pass creation, being on support for the activity and then post checks).
- OS installation on old and new rack/blade servers.
- Chassis and Blade firmware upgrade.
- Changing the BOOT order and creating RAID array for servers.
- Adding the hardware in vendor support after support expiration.

AD/DNS:

- Manage Active directory & Privileges for users and management servers.
- Handling account expiration and password reset for users manually and via PowerShell script.
- Addition and removal of a server from domain/groups.
- Create, Delete, Append Domain and DNS entries like A record, CNAME record, TXT record, MX record, NS record.

Process & Ticketing tool:

- Possess good Knowledge of ITIL process. Submit and close Incident, Change, Query & Problem tickets as per ITIL process Standards.
- Providing technical support to resolve escalated problems from the team in a timely manner according to the SLA. Coordinate global activities with other technical support teams.

Patching:

- Prechecks of VMs for patch management and coordinate with VM/application owner.
- Analyze required patches and filter out which patch to keep as a baseline.
- Create various groups for patching and add servers to that group.
- Push the groups to the patch baseline.
- Monitor the deployment.
- Troubleshoot on failed servers.
- Manual patching of few servers.
- Post checks of VMs.

Backup and Restore:

- Adding VM in backup, configuring the backup retention period of the VM & removing as per client requirements.
- Creating policies/groups.
- On demand backup.
- Scheduling backups and Restoring backups as on required using Avamar backup tool.

2) ResMed Technology India Pvt. Ltd. - Mumbai
Infrastructure Platform Engineer | VMware Specialist

Jun 2023 - Aug 2024

- Roles and responsibilities same as that of now.

3) LTIMindtree Pvt. Ltd. - Mumbai
Infrastructure Platform Engineer | VMware Specialist | Team Lead

Feb 2021 - Jun 2023
Project: ResMed

- Roles and responsibilities same as that of now.

Team Lead:

- Communicating goals and targets. Delegate tasks and set deadlines.
- Lead and motivate team members.
- Monitor and manage team performance and report on metrics.
- Discover training needs and provide coaching.
- Listen to team members feedback and resolve any issues or conflicts.
- Recognize high performance and reward accomplishments.
- Problem solving approach.
- Preparing team roster and leave management.
- Covering the manager when he's out of the office.
- Conducting team and 1-to-1 meetings.
- Quality control and efficiency.
- Care for the health, safety and welfare of my resources.

4) Pi Datacenters Pvt. Ltd. - Mumbai
(Contractor to VMware Inc.)

Aug 2020 - Feb 2021

VMware Consultant

Project: SBI

- Roles and responsibilities same as that of now.

vRA:

- Provisioning and Decommission Virtual Machine.
- Performing various actions on VM's like requesting temporary password, power off, power on, reboot, system parameter modification, adding hard disk, taking snapshots.
- VM import and data collection.
- Add and delete Users in *Request Approvers*.
- Monitoring requests, managing available resources for the requests and providing approval for the requests.
- Working on failed requests.

5) US Software Group and Services Pvt. Ltd. - Mumbai
(Contractor to Capgemini Technology Services)

Sept 2018 - Aug 2020

VMware Consultant

Project: SimpliVity

- Started as a L2 VMware Administrator and by the end was a L3 VMware Administrator

6) Atos India Pvt. Ltd. - Mumbai
VMware Administrator

June 2015 - May 2018
Project: Canopy Cloud

- Started as a Trainee and by the end was a L2 VMware Administrator

Certifications

- VMware Certified Professional - Data Center Virtualization, Version 6, 6.5, 6.7, 7 (VCP-DCV 2021)
- VMware Certified Advanced Professional - Design, Version 6.5 (VCAP-DCV Design 2020)
- VMware Certified Professional in Cloud Management and Automation (VCP-CMA 2020)

- VMware Certified Professional in NSX-T, Version 3.0 (VCP-NV 2021)
- Information Technology Infrastructure Library Foundation Certification in IT Service Management (ITIL v3)
- VCE Converged Infrastructure Associate (VCE-CIA)
- VMware Technical Solutions Professional (VTSP 2016)
- AWS Cloud Foundation (AWS CLF-C02)
- AWS Solutions Architect Associate (AWS SAA-C03)

Courses/ Training's

- Private Cloud and Shared Cloud
- vSphere: Install, Configure and Manage
- vSphere: Optimize and Scale
- Site Recovery Manager, version 8.2 (SRM)

Achievements

- Received Star Performer, Go MX, Pat on the Back and Spot award from Atos, Capgemini, VMware and LTIMindtree for going extra mile, being proactive, extra commitment and efforts in completing project assignment.
- Received appreciation from Atos, Capgemini, VMware and LTIMindtree for creating and updating technical documents as and when required and providing knowledge transfer to new joiners.

Academic Credentials

Master of Science - Information Technology (Full Time) University of Mumbai	2019
---	-------------

Bachelor of Science - Computer Science (Full Time) University of Mumbai	2015
---	-------------

Personal Details

Address	: Beford Highway, Halifax, Nova Scotia B3M 4A9, Canada.
Date of Birth	: 23 rd June 1994.
Languages	: English, Hindi and Marathi.

Declaration

Hereby, I declare that the above-mentioned information is correct to the best of my knowledge, and I bear the responsibility for the correctness of the particulars.

Date: 14th November, 2025
Place: Halifax, Canada.
