Professional Summary

Software Development Engineer with 17+ years of experience designing, developing, and maintaining large-scale backend and full-stack enterprise systems. Proven track record at AWS building cloud-native, distributed services with high availability, operational efficiency, and strong security posture. Skilled in .NET, Java, React.js, REST APIs, integration patterns, and database-driven systems.

Technical Skills

Languages:	C#, Java, TypeScript, JavaScript, SQL
Frameworks:	.NET, React.js, Redux/RTK, RxJS, ASP.NET MVC, WebAPI, Entity Framework
Cloud:	AWS (S3, IAM, Lambda, CloudWatch, CloudFormation)
Databases:	SQL Server, MongoDB
Architecture:	RESTful APIs, Distributed Systems, CI/CD
Tools:	Git, GitHub Actions

Professional Experience

Amazon Web Services (AWS)

Aug 2022 – Apr 2025

Software Development Engineer II

- Designed and delivered end-to-end features for AWS S3 Console.
- Developed backend and UI features using Java, TypeScript, and React.js.
- Improved deployment reliability through automated CI/CD validation checks.
- Participated in on-call rotations and incident response optimization.

Achievements

- Launched S3 Express Buckets in the console.
- Added support for S3 Access Grants in the console.
- Implemented S3 Table Buckets in the console.
- Refactored server-side logic into a Micro frontend architecture.

Integrant, Inc.

Jun 2013 – May 2022

Lead Software Engineer

- Architected .NET-based enterprise systems with RESTful integrations.
- Implemented reusable service components improving delivery speed.

- Led QA and development teams with consistent code review standards.
- Improved delivery predictability using Agile methodology (Scrum/Kanban).
- Mentored engineers and maintained high code quality standards.

Achievements

- Created multiple Fintech products (Insurance, Debt Management).
- Delivered customer-facing portals to consume Fintech services.
- Integrated insurance software with U.S. federal government services.

Integrand, Inc.

Senior Software Engineer

Dec 2011 – May 2013

- Developed ASP.NET MVC web apps with SQL Server backend.
- Collaborated on system design and integration layer architecture.

Earlier Roles

Junior → Software Engineer — Cairo, Egypt

Feb 2008 – Nov 2011

- Built enterprise .NET applications and integrations using WCF/SOAP.
- Collaborated on database schema and query optimization.
- Contributed to frontend components in JavaScript.

Education

Bachelor of Engineering – Computer Engineering

Assiut University

2002 – 2007
