

Aryn J. D. Piragoff CFOT CFOS/S/O

#406, 10903 103 Ave NW, Edmonton, Alberta

P: (780) 200-8918

argotech@protonmail.com

PROFESSIONAL SUMMARY

Multidisciplinary technologist with 25+ years of experience across **telecomm, IT & network operations, AV/event production, Broadcasting, and remote infrastructure management**. Proven leadership in NOC operations, enterprise IT, field deployments, and safety systems. Adept at **network administration, MSP operations, cybersecurity, AV/production, Information systems integration, and project delivery** in challenging and remote environments. Recognized for **safety excellence, operational leadership, and innovation**.

EXECUTIVE PROFILE

Senior technology and operations leader with over two decades of progressive experience spanning all aspects of telecommunications. Proven ability to design, operate, and scale mission-critical infrastructure in remote and high-risk environments.

Best known for building and leading a full Network Operations Center (NOC) for an Indigenous-owned ISP/MSP in northern Quebec and Labrador, unifying fiber, LTE, IT services, cybersecurity, surveillance, safety, and emergency response under a single operational model. Trusted technical advisor to Band Councils, community stakeholders, enterprise customers, and regulatory bodies. Equally fluent in executive governance, hands-on field operations, and creative technical domains including media production, fabrication, and live event systems.

AVAILABILITY

- Location: Edmonton, Alberta; Vancouver, British Columbia; Montreal, Quebec (willing to travel / relocate / remote / northern deployments)
- Availability: Immediate (flexible)

CORE COMPETENCIES

- Network Operations & NOC leadership
- Fiberoptic Technician (certified) with Outside Plant and Splicing Specialties, OTDR testing, restoration workflows
- LTE/WISP design, backhaul integration, tower/site commissioning
- NetAdmin / SysAdmin — VM management, backups, patching, monitoring
- MSP delivery (multi-stakeholder environment) — identity, access, ticketing, SLAs
- Cybersecurity fundamentals: firewall configuration (Barracuda), logging, policy support
- Microsoft Entra (Azure AD) — user lifecycle, groups, access control
- INFO-EX / Call-Before-You-Dig workflows, GIS mapping for locates
- Safety system design — reporting, tracking, JHSC integration (CNESST-commended)
- Surveillance systems & lawful forensic data handling (CCTV & network captures)
- AV, Event and Studio Production: multi-camera live production, streaming, projection mapping, 360° simulation theatre
- AutoCAD (certified), documentation, as-built drawings, signal flow diagrams
- Mechanical / fabrication skills: machine shop, blacksmith training, precision metalwork
- Tools / platforms: OTDR, FLUKE, Fusion Splicer, AutoCAD, VMWare, ServiceNow, Cisco, Polycom, Crestron, AMX, Biamp, Photoshop, Office, Windows, Linux, Mikrotik, Unifi, Ubiquiti, etc.

EDUCATION

Northern Alberta Institute of Technology (NAIT)

Diploma - Radio and Television Arts (RTA) 2002 to 2004
Certificate - Fiber Optic Technology (CFOT) 2016
Certificate - Fiber Optic Splicing Specialist (CFOS/S) 2016
Certificate - Fibre Optic Outside Plant Specialist (CFOS/O) 2022
Certificate - AutoCAD Operator 2017
Certificate - Programmable Logic Controllers (PLCC) 2018
Certificate - Blacksmith I + II, III 2018, 2019
Certificate - Network+ 2018
Certificate - Security+ 2018
Certificate - Industrial Automation Control (IACC) 2019
Certificate - Beekeeping (ABCBee I) 2019
Certificate - Linux+ 2019

SAFETY CERTIFICATIONS (current)

Aerial Boom & Scissor Lift Pre-Shift Inspections (Completed on 28/04/2024)
Asbestos Hazards and Controls (Completed on 11/05/2024)
Accessibility for Ontarian's with Disabilities Act (AODA) (Completed on 01/02/2025)

WORK EXPERIENCE

Sr. Manager - Network Operations & Safety - Sichuun Inc, Kawawachikamach, Quebec, 2020-2025

Role: Reporting to the CTO, To establish, staff, and operate the Network Operations Center and oversee telecom, FTTH, IT, MSP, safety, and emergency response operations for an Indigenous-owned Fiberoptic ISP/MSP serving remote communities.

- Built, staffed, operated and managed the NOC supporting:
 - a long-haul, rail-aligned fiber backbone spanning ~700 miles along the QNS&L corridor
 - FTTH community infrastructure
 - LTE fixed wireless ISP services,
 - regional enterprise and community MSP services
 - local technical resources for industrial facilities such as Tata Steel Minerals Corp mine and utility providers such as Newfoundland Hydro, Hydro Quebec and Kawawachikamach Energy Services, Inc.
- Managed operational inventory of ~1,000 endpoints and supporting ~700+ subscribers (community, commercial, industrial).
- Directed, scheduled, and dispatched IT technicians and outside plant (OSP) crews for installation, maintenance, and restoration (including fiber splicing and tower/site work).
- Acted as principal escalation for service outages and incidents; coordinated logistics for remote repairs, including, skidoo, rail and helicopter supported crew deployment when required.
- Administered MSP server/VM environments (provisioning, backups, monitoring, patching) for both company and stakeholder infrastructure.
- Configured and managed Barracuda firewall appliances and implemented firewall / email/web protection policies.
- Administered Microsoft Entra ID (Azure AD) for community users: account provisioning/deprovisioning, password resets, group memberships and access controls.
- Managed voucher-based Wi-Fi distribution systems and user onboarding processes.
- Performed INFO-EX / Call-Before-You-Dig responses: produced infrastructure maps, responded to locate requests, dispatched crews for marking.

- Installed, maintained, and monitored surveillance/CCTV systems; performed lawful forensic exports and evidence handling (video & network traffic) on request from law enforcement (chain-of-custody procedures applied).
- Designed and implemented safety reporting and tracking systems for field and NOC operations; these systems were formally commended by CNESST inspectors during inspections.
- Assisted with local emergency logistics during COVID-19 pandemic: received vaccine shipments and coordinated distribution to pharmacies and clinics, implemented sterilization protocols (UV process) for deployed equipment.
- Consulted with Band Councils and community stakeholders for IT strategy and services; handled procurement, vendor coordination, and stakeholder reporting.
- Produced and broadcast community media (Sichuun TV & live events), and consulted on radio station revitalization and streaming for governance / cultural events.

Founder / Owner — Argotech — Edmonton, AB / Schefferville, QC March 2019 – Present

Role: To provide independent IT/media/event consulting, precision fabrication, and specialized services to remote clients and communities.

- Delivered IT consulting, small MSP-style services, and ad-hoc system installs for clients.
- Performed custom metalwork, machining, and gunsmithing services (side business / fabrication work).
- Produced and distributed multimedia — multiple seasons of a personal YouTube channel; livestreamed events and created video content for clients.
- Performed site surveys, small equipment and software installs and provisioning on contract/consult basis.
- Maintained own tools, equipment, and supplies for fieldwork and fabrication.

Campus Coordinator - Smith School of Business, Queens University Edmonton Campus, 2019

Role: To operate and maintain videoconferencing facilities and act as local facilitator for Executive MBA distance learning students.

- Managed 2 videoconferencing endpoints and supported ~32 Executive MBA students
- Programmed and managed Honeywell access control door systems; distributed keycards and maintained access lists.
- Administered Cisco Meraki wireless APs, Cisco fiber modem/router, Polycom codecs, TVONE hardware, WTI networked power control, NEC monitors.

Event and Production Technologist - NAIT Productivity and Innovation Center, Edmonton , 2018-19

Role: To design, configure, and operate integrated AV and immersive systems across campuses; to support institutional events and applied research facilities (PIC).

- Provided AV and media support across 5 campuses (Main, Souch, Patricia, Calgary, Peace River), supporting ~700+ classrooms and labs, ~2000+ staff and ~8000+ students
- Core contributor to the implementation and support of the 360° simulation theatre: media-server configuration, multi-projector pixel mapping, show control, interface programming, and 360° content creation.
- Supported high-visibility events including convocation, open house, town halls, and external client events (staging, streaming, recording).
- Encoded and scheduled content for APPSpace digital signage; managed campus digital signage workflows.

- Delivered AV troubleshooting, production, training, and documentation for staff and faculty; supervised student workers; interfaced with vendors.

Structured Cable Technician - NAIT, Edmonton, 2017-18

Role: To install, test, and commission structured cabling, optical fiber, and associated telecommunications infrastructure.

- Performed installation, OTDR verification, and commissioning of fiber and copper cabling; supported surveillance/security installs.
- Used FLUKE network testers, OTDR, fusion splicer and common cabling tools; followed confined-space, fall protection, and lift procedures.

Systems Analyst, Audio-Visual - NAIT, Edmonton, 2016-19

Role: To analyze, design, implement and support AV systems and integrated room control solutions across campus learning environments.

- Produced systems requirements, troubleshooting processes, and test/validation procedures.
- Coordinated with integrated room control system programmers (Crestron/AMX) and validated results through testing.
- Provided training and documentation to ensure operational handover to client personnel.
- Utilized and supported a wide range of AV and IT platforms

Conference and Event Technician - MacEwan University, Edmonton, 2016-19

Role: To deliver event AV support for campus events, presentations, and conferences.

- Provided consultation and technical support for presenters and instructors; setup and troubleshooting of integrated and temporary staging technologies.

Service Technician - Metaconex, Edmonton, 2017-18

Role: To provide IT systems support, network troubleshooting, and surveillance system installation.

- Installed and configured servers (Dell), routers/switches, and Ubiquiti camera systems
- Delivered field troubleshooting and system support.

DJ/Music Coordinator - BoomTown Sound, Edmonton, 2017-19

Role: To rock the party.

- Provided appropriate sound accompaniment to events, following cue sheets
- MC and PA services

Telehealth Technician II - Alberta Health Services, U of A Hospital, Edmonton, 2011-14

Role: To operate, maintain and support telehealth and videoconferencing systems for clinical, educational, and administrative purposes.

- Provided technical support and expertise to medical professionals, primarily for Telehealth, Telestroke and Telemedicine on the University of Alberta Hospital Campus
- Managed telehealth endpoints, classrooms, multimedia recording/editing, large event coordination, and end-user support
- Participated in medical rounds, briefings, training, classes, operations and research.
- Member of Health Sciences Association of Alberta

Warehouse Supervisor/Systems Integrator - Sharp's Audio-Visual, Edmonton, 2009-11

Role: To support AV installation projects, live event production, warehouse operations, and logistics.

Mobile Technical Services Representative - NCR Canada, Inc. Edmonton Branch, 2008-9

Role: To provide installation, repair and maintenance of ATM and POS systems across Northern Alberta.

DJ/Music Coordinator - Platinum Sound and Light, Winnipeg, 2005-8

Role: To coordinate music and sound for weddings, social, corporate and charity events; provide event AV services.

Customs Brokerage Data Entry Clerk - UPS, Winnipeg, 2006-7

Role: Data entry and information verification for international shipments

Technical Services Representative II/III - Convergys Customer Management, Winnipeg, 2004

Role: To provide technical telephone support for high-speed internet and networking troubleshooting.

Producer - Standard Radio, Kelowna, 2003

Role: To record and edit commercials for local radio broadcasts.

Studio Camera Operator/Production Assistant - Global Television, Edmonton, 2002-3

Role: To support daily live television news production and commercial production.

CERTIFICATIONS (other)

Quebec Driver's License Class 5

First Aid & CPR Level C, 7/2013, 6/2023

Psychological Crisis Intervention, 5/2009

Non-Violent Crisis Intervention, 11/2013

PRODUCTION CREDITS

2021 - 2025, Sichuun TV and Live Events as Producer, Camera, Streaming Operations, Sound

2021, Zoot Zoot (music video) as Artist, Writer, Choreographer

2013, A Happy Engagement (short film) as Second Camera Unit Director, Actor

2012, BOOM! (short film) as Assistant Director, Key Grip, Prop Wrangler, Stuntman, Extra

2011, Tai Chi Instruction Video Series in Pavonias, Costa Rica as Producer, Camera, Editing

2002, 90th Grey Cup with Global Edmonton as Camera Assistant, Dolly Grip

2002-3, TV News/Commercial Production, with Global Edmonton as Production Assistant

Since 2001, over 400+ Weddings, staging events, graduations, parties, festivals, etc, etc...

AWARDS

DUKE - Naskapi Winter Festival - March 2025 - Naskapi Nation of Kawawachikamach

For Recognition of Service to the Community of Kawawachikamach

SHINE Award – Innovation – February 2019 – Northern Alberta Institute of Technology

For Innovation Excellence in Simulation Technology

Certificate of Recognition - April 2010 - RCMP Hobbema (Maskwacis) Detachment

For Meritorious Service to the Community of Hobbema (Maskwacis)

Silver Medal 2000 - Edmonton Science Olympics

Silver Medal 1993 - Sherwood Park Science Fair

Gold Medal 1990 - Sherwood Park Science Fair

GROUPS

Fiber Optic Association (from Oct 2016)

Alberta Union of Provincial Employees (2016–2019)

NAIT Students Association (2002-4, 2016-19)

MacEwan Staff Association (2016 - 2019)

Health Sciences Association of Alberta (2011–2015)
Various martial arts and community associations
