

Andrew Willis

St. Catharines, Ontario, Canada | Fully Remote (ET) | 289-479-5659 |
andrewwillisca@gmail.com | linkedin.com/in/andrewwillisca
Work Authorization: Canada

Summary

Remote Technical Support and UCaaS Implementation specialist with strong VoIP depth. Supported **40+ clients**, deployed **640+ extensions**, and improved support response windows from **1 to 2 days** to **1 to 2 hours** (often under 30 minutes). Known for calm troubleshooting, clear documentation, and end-to-end onboarding from discovery to go-live and training.

Tech Stack

UCaaS and VoIP (Yeastar P-Series Cloud, E-MetroTel, SIP, IVR, queues, call recording, paging, DID, E911, LNP) | Networking (QoS, VLAN, PoE, DHCP/DNS) | RepairShopr (admin) | ConnectWise | SolarWinds RMM | Microsoft 365 admin | ScreenConnect, TeamViewer, AnyDesk | Teams, Zoom

Skills

Technical Support | Remote troubleshooting | Ticket triage and escalation | Customer communication | Documentation and training | UCaaS onboarding | Call flow design | VoIP provisioning | Porting (LNP) | E911 and DID management | Basic network readiness (VLAN/QoS) | Demos and proposals

Experience

Telecable.ca and Security | Communications Specialist (VoIP and UCaaS)

St. Catharines, ON | Oct 2017 – Oct 2025

- Owned support and onboarding for a UCaaS and VoIP practice, acting as a one-person department across delivery, support, and quoting.
- Supported **40+ client organizations** using a remote-first model (ticketing, live troubleshooting, scheduled sessions, follow-up).
- Improved response windows from **1 to 2 days** to **1 to 2 hours**, often under **30 minutes**, through better ticket routines and remote workflows.
- Deployed **640+ extensions** across cloud PBX platforms, including multi-site rollouts and complex call routing.
- Led end-to-end implementations: discovery, call flow planning, configuration, cutover, go-live support, and user training.
- Managed **LNP porting**, DID, and **E911**, coordinating carriers and vendors using checklists and dry runs.

- Partnered with client IT on VoIP readiness and call-quality troubleshooting, including VLAN and QoS basics, PoE needs, and network checks.
- Built documentation and repeatable processes (runbooks, checklists, training notes) to reduce repeat issues and smooth handoffs.
- Delivered demos and proposals, explaining trade-offs clearly and handling objections without pressure.
- Built an internal quoting workflow/tool that saved **1 to 2 hours per estimate** by standardizing common “bundle” builds.
- Provided **after-hours on-call support** for urgent outages and business-impacting issues.

CompuSpa | Owner, IT Consultant (SMB)

St. Catharines, ON | Jul 2013 – Jul 2018

- Delivered onsite and remote support for SMB clients across hardware, software, and networking.
- Managed quoting, vendor coordination, billing, and service delivery with strong documentation habits.

Kane’s Distributing Ltd | Systems Administrator

St. Catharines, ON | Nov 2011 – Jun 2013

- Supported workstations, servers, and network gear; improved reliability through monitoring and documentation.
