SOFTWARE ENGINEER

CONFIGURATION MANAGEMENT, BUILD AND RELEASE, TECHNICAL CUSTOMER SUPPORT

Versatile and analytical software engineering professional with extensive experience in software configuration management, build and release automation, software packaging, and second-line customer support. Skilled in leveraging Azure DevOps, GitHub, MSBuild, PowerShell, and InstallShield to streamline delivery pipelines and speed up product delivery. Recognized for resourcefulness, diligence, and consistently delivering results in fast-paced, high-pressure environments with shifting priorities.

CORE SKILLS

- **Build & Release Management** – Design, document, implement, and maintain build and release processes
- **Build & Release Automation** – Azure DevOps CI/CD pipelines, GitHub Workflows, MSBuild, PowerShell
- **Version Control & Branching** – GIT, and effective branching strategies
- **Configuration Management (CM)** - Develop, document, and enforce CM processes, baselines and traceability for all configuration items
- **Customer Support** – Troubleshoot complex issues in real-time and offline, collaborating with first-line support engineers

PROFESSIONAL EXPERIENCE

Infovista, Gatineau, QC | Persistent Systems Limited, Kanata, ON

April 2013 – Sept 2025

Continued in the same role and development environment as at Infovista, following the acquisition of the R&D teams based in Canada and Malaysia by Persistent Systems Limited (PSL) in July 2024. Infovista became a client of PSL.

Configuration Management Engineer

- Developed and maintained CI/CD pipelines with Azure DevOps pipelines and GitHub Actions to enhance automation processes.
- Designed, implemented, maintained artifact and package management systems (JFrog Artifactory, Azure DevOps Artifacts, NuGet, DockerHub).
- Designed, documented, automated software release processes with Azure DevOps release pipelines; Successfully managed and executed official product releases.
- Modernized .NET projects by migrating them to SDK-style, replacing DLL-based references with NuGet. packages, and implementing automated pre- and post-build processes using MSBuild and PowerShell.
- Supported Docker containerization and Kubernetes deployments on Azure, AWS, VMWare, Hetzner.
- Defined and implemented GIT branching strategies to support parallel development workflows.
- Packaged Windows desktop applications using InstallShield (InstallScript, MSI).
- Defined and implemented SCM processes and procedures, enabling Infovista to achieve ISO/IEC 27001:2022 certification.
- Provided ongoing support to customer support engineers, including real-time and offline troubleshooting of complex issues, ensuring timely and accurate solutions.

Mentum, Gatineau, QC

June 2007 - April 2013

Configuration Management Engineer

- Streamlined CM processes by migrating from ClearCase to Microsoft Team Foundation Server (TFS) now known as Azure DevOps Server and from Visual Build Pro based build scripts to TFS classic pipelines.
- Improved change management by introducing principles of CI/CD pipelines in build and release operations.
- Developed and maintained configuration management processes and branching strategies based on Microsoft recommended practices.
- Responsible for TFS Server regular maintenance (DB backups, monitoring disk space, updates/security patches).
- Packaged desktop applications using InstallShield technology (InstallShield scripts, MSI).

OTHER RELEVANT EXPERIENCE**Ericsson, Gatineau, QC | Configuration Management Engineer**

- Pursued continuous improvement of CM processes, streamlining and scaling build and release operations to align with organizational growth and changing project demands.
- Adopted InstallShield technology to formalize and control the packaging process for desktop applications, enhancing traceability and configuration integrity.

Marconi, Kanata, ON | Configuration Management Specialist

- Automated version control and change management by implementing the ClearCase Configuration Management tool, and streamlined build and release processes through the adoption of Visual Build Pro.
- Designed and documented a branching strategy aligned with ClearCase capabilities, the product release cycle, and industry best practices.

Motorola, Tel Aviv, Israel | Software Process and Configuration Engineer

- Deployed SEI CMM Levels 3–5 and initiated CMMI adoption.
- Maintained ISO 10007 (ISO 9001) compliance and introduced Agile practices.

Emblaze, Tel Aviv, Israel | Software QA Engineer

- Created and executed manual test cases for desktop applications.
- Validated software releases for quality and stability.

EDUCATION**Master of Science (MSc)**

Leningrad Electrotechnical Institute named after V. I. Ulyanov (Lenin), Leningrad, Russia
