

ALEXANDER NAYLOR

+1 (519) 404-9131 | alexandernaylor@outlook.com | Southern Ontario Canada | [linkedin.com/in/AlexNayl/](https://www.linkedin.com/in/AlexNayl/) | github.com/AlexNayl/ | alexnayl.github.io/

I'm well-equipped to contribute to your development team with proficiency in various programming languages and frameworks, allowing me to adapt easily to whatever tech stack the project needs.

EDUCATION

University of Western Ontario

October 2025

Master's, Software Engineering

- Member of the Skylark satellite development team, focusing on ground station system selection and implementation.

Ontario Tech University

April 2023

Bachelor's, Computer Science

- Minored in Astronomy
- Specialized in Data Science with courses such as Data Mining, Database Systems and Concepts, Computer Vision, Big Data Analytics, Information Visualization, and Machine Learning.

PROJECTS & OUTSIDE EXPERIENCE

Satellite Development - Western University's Skylark Project

- Member of the Skylark satellite development team, focusing on ground station system selection and integration.

Geo Photo Social Media App

<https://github.com/AlexNayl/GeoPhotoSocialMedia>

- A mobile app made using the flutter framework in collaboration with 3 others in a mobile development class
- It's a prototype social media site where users can post geolocated photos on a map.

Web Hosted Boid Behaviour Model Demo

<https://github.com/AlexNayl/RustBoidDemo>

- Experiment deploying a Rust powered game engine called Bevy to the internet using Web Assembly
- Demo mimics flocks of birds or schools of fish using simple movement rules.

Embedded Automatic Window Fan

<https://github.com/AlexNayl/AutomaticWindowFan>

- A DIY window fan designed to keep a room at a target temperature when outside conditions allow
- Meant to be an exploration of foundational skills for embedded software.

PROFESSIONAL EXPERIENCE

Schneider's Computing

Listowel, ON, Canada

Computer Repair Technician

August 2023 - September 2024

- Operated the Listowel satellite store, providing customer service with a high degree of independence.
- Repaired desktop and laptop computers in store with quick turnarounds, using attention to detail to minimize reoccurrences.
- Assisted Internet Service Provider team in field calls and network maintenance.

Ontario Tech Univeristy

Oshawa, ON, Canada

Teaching Assistant

January 2023 - April 2023

- Led 20 students through several lab activities involving Java, Glassfish backends and HTML, JavaScript frontends. Focusing on troubleshooting techniques and effective communication.
- Explored file access, multithreading, network communications, and working with build tools.

SKILLS

General Software Development: Data Structures & Algorithms, Agile, Quality Assurance (QA), JavaScript, Python, Rust, Java, Kotlin, C/C++, Version Control, Git

Frontend Systems: HTML/CSS, Bootstrap, React.js

Data Science: Data Analysis, Computer Vision, Machine Learning, Data Mining, Data Visualization, MATLAB, Keras, OpenCV, NumPy, Pandas

Backend Systems: Linux/Unix, REST APIs, SQL, Docker, Kubernetes, Microservices, DevOps, Google Cloud Platform GCP, Cloud Computing, Database Systems and Design
