

Mykhailo Moroz

Location: Toronto | ON | Canada | open for relocation
Mobile: 647-607-9083 | Email: moroz1456@gmail.com | LinkedIn: www.linkedin.com/in/mykhailo-moroz

Summary of Qualifications

- Programming Languages: Java (Spring boot, hibernate), Python, SQL, C#, R
- Knowledge of object-oriented programming and cloud computing technologies: AWS, GCP
- Experience in developing web applications using HTTP, JavaScript and REST API
- Strong knowledge of the Spring framework
- Applied knowledge of computer science fundamentals, including data structures, algorithms, and Git (GitHub/GitLab)
- Strong attention to detail, quick and adaptive learner, team player
- Experience working in cross-functional, agile environments and with CI/CD pipelines
- Excellent written and verbal communication skills

Experience

GoodLabs Studio Jan 2023 – Dec 2024
Junior Payment Optimization Research Associate

Toronto

- Successfully integrated multiple payment optimization algorithms into the client's banking simulator
- Utilized Java and MS Excel to test and analyze output from the simulator with different payment optimization algorithms
- Performed foundational statistical analysis to evaluate datasets and extract insights
- Collaborated closely with the client to help integrate the payment optimization algorithms into the simulator
- Maintained comprehensive documentation of the code and the project
- Provided daily progress reports to the GoodLabs team, facilitating transparent project management and timely adjustments based on feedback

Stallion Enterprises Jun 2022 – Aug 2022
Software Engineer

Toronto

- As part of a team of 5 helped the employer improve and debug the company's website
- Added new features to the frontend code and annotated frontend and backend code using REST API

Computer Science Tutor | Self-Employed 2020 – 2021

- Tutored students in basics of Java and Unity

Education

University of Waterloo Sep 2020 – Dec 2025
Waterloo, Canada

- Candidate for Bachelor of Computational Mathematics, Honours Mathematics
- Key courses and areas of study: Algorithm Design and Data Abstraction; Data Types and Structures; Computational Mathematics and Differential Equations; Computers and Computer Systems; Combinatorics and Optimization; Statistics and Probability; Computational Statistics and Data Analysis; Computational Discrete Optimization; Cryptography; Macroeconomics; Calculus; Linear Algebra; Quantum Physics; Network Flow; Scheduling

Volunteering

FLAP Canada | Window collision bird rescue volunteer Apr 2017 – Sep 2020

Projects and Awards

-
- University of Waterloo President's Scholarship in 2021
 - Top 25% in the CEMC University of Waterloo Hypatia contest in 2019
