

(Amy) Wai Ting Chan

+1 (778)-866-6220 | cwtamy021217@gmail.com | English/Cantonese/Mandarin | she/her/hers

Education

University of British Columbia | Vancouver, BC

Sept 2022 – Apr 2025

- Bachelor of Arts in Cognitive Systems
 - Multi-disciplinary: Computer Science, Philosophy, Psychology, Linguistics
- Graduated with a GPA of 3.75

Langara College | Vancouver, BC

Jan 2021 – Aug 2022

- Associate of Science in Computer Science
- Graduated with Distinction and Received multiple Dean's Honour Roll awards

Technical Skills

Python	Java	JavaScript	HTML/CSS	C++	C	R	PHP
Typescript	React	Tailwind CSS	Git/GitHub	VS Code	IntelliJ	MATLAB	R Studio
Oracle	MySQL	MS SQL	Scikit-learn	spaCy	NLTK	MNE	DataGrip
Figma	AWS (Cognito, Lambda, API Gateway, Bedrock)				Agile methodologies		

Projects

AI Resume Analyzer

Oct 2025

- Developed a serverless application using React and TypeScript that provides AI-powered, real-time ATS scoring and resume feedback based on job descriptions
- Implemented Puter.js OAuth for secure authentication and user data isolation, eliminating the need for a backend server or API key management
- Utilized client-side PDF handling for secure upload, storage, and conversion of PDFs into preview images for a smooth resume review experience
- Created a responsive, data-driven UI with Tailwind CSS and dynamic visualization components like score gauges and status badges to present AI evaluation results clearly

Autonomous Robotics System

Jan 2025 – Mar 2025

- Developed an embedded robot with line-following, person-tracking, and wall-detection modes using Arduino C++ and components like ultrasonic sensors and motor drivers
- Designed a finite state machine with filtered signals and calibrated thresholds, enabling noise reduction, autonomous navigation and reliable real-time behavior switching
- Optimized performance through pulse width modulation and proportional control to smooth turns, stabilize motion, and reduce steering oscillation
- Achieved emergent adaptive behavior driven by real time multi-sensor feedback

CIC Generative AI and Sustainability Hackathon

Oct 2024

- Developed a disease diagnosis system using AWS services and generative AI
- Designed a Flutter UI for symptom collection and diagnosis display
- Implemented Cognito for secure authentication and API Gateway for request routing
- Optimized outputs via prompt engineering and filtering in Lambda
- Integrated Bedrock with Llama 3 model to generate AI analysis and potential diagnoses

Olympic Games Management System

Sep 2023 – Nov 2023

- Developed a comprehensive management system for Olympic Games operations, involving meticulous entity-relationship modeling and rigorous normalization
- Generated SQL scripts for the creation and management of tables
- Designed a user-focused interface using HTML, CSS, and JavaScript
- Integrated frontend with PHP and Oracle backend for cohesive and reliable functions

Beauty Application

Jan 2023 – Mar 2023

- Developed a Java app for cosmetic search and bookmarking with dynamic UI elements
- Saved items from a bookmark table to a JSON file as a lightweight, file-based data layer
- Constructed JUnit tests covering functionality, edge cases, and out-of-bounds scenarios
- Utilized breakpoints and step-through debugging to identify and resolve issues
- Enhanced architecture using object-oriented design, encapsulation, and polymorphism

Work Experience

Grader, Department of Statistics

Sep 2022 – Current

Langara College | Vancouver, BC

- Work for 2 professors each term and Graded assignments for over 500 students
- Ascertain and follow their specific marking requirements
- Created assignments on WeBWork using Perl

Research Assistant

Jan 2025 – Jun 2025

Interactive Mind & Movement Lab (UBC) | Vancouver, BC

- Collected MEG data at Surrey Memorial Hospital, conducted data preprocessing, generated brain activity visualizations for analysis, and collaborated with lab members
- Debugged code and optimized data pipelines using Python and MATLAB
- Trained new research assistants on lab protocols and workflows
- Presented project progress and findings to the supervisor
- Certificates: TCPS-2, Fraser Health Orientation, Magnetic Resonance Safety Level 1

Tutor

Oct 2020 – Apr 2021

Unice | Hong Kong

- Tutored a group of 8 elementary school students patiently
- Reported students' learning progress to their parents every week
- Helped students improve their scores from 60 marks to 80 marks by explaining sophisticated concepts with real-life examples
