

SAI BHARATH REDDY CHODAVARAM

SOFTWARE DEVELOPER

OBJECTIVE

To obtain a challenging software developer position where my creativity, problem-solving skills, and experience in developing, engaging a user-friendly interface and as well as core functionalities can be utilized to enhance user experiences and drive business objectives. I am passionate developer and certified **Python Web Developer** from **Harvard University**. I am always focused and motivated to complete my tasks.

EXPERIENCE

WAVEOPS SOLUTIONS – DEVELOPER

Mar 2024 - Apr 2025

- Developed a WEB API application using .Net core Web APIs along with Angular as frontend.
- Developed microservices in order to maintain quality standards.
- By using Angular reusable components, we have increased the performance of overall application by 27%.
- Created CI/CD for continuous delivery using Azure DevOps.
- Enhanced UI features and implemented all the components with my knowledge to eliminate accessibility issues.

SONATA SOFTWARE - FULL STACK ENGINEER

Sep 2021 - Nov 2023

- Contributed significantly as a Full Stack Developer to the Microsoft Cloud for Sustainability application.
- Engineered new features and performed key UI enhancements for the dashboard according to Figma designs and prioritizing user experience.
- Diagnosed and corrected backend logic defects, ensuring reliable application performance increase by 30%.
- Built and integrated robust automation Playwright test cases to validate functionality across the UI of application.
- Elevated code quality standards by implementing and managing ESLint configurations increased coverage by 80%.
- Executed UI/UX improvements and resolved accessibility issues (**WCAG 2.1**).
- Managed code integration and deployment processes by effectively utilizing Git branching strategies (e.g., feature branches, release branches) to ensure stable and continuous delivery.
