PROFILE SUMMARY

Results-driven Software Developer with over 8 years of experience in documenting, designing, developing, and optimizing web applications and automation solutions. Adept at collaborating in Agile environments, delivering high-quality code, and mentoring team members. Known for hard work, positivity, problem-solving, and has a commitment to continuous learning and innovation.

EDUCATION

Diploma of Information Technology (Website Development) 2017
Nova Scotia Community College (Halifax, Nova Scotia)

SKILLS AND RELEVANT EXPERIENCE

- Web Application Development (Angular v17, AngularJS, Node.js, Express)
- Front-End Technologies (HTML, CSS, JavaScript)
- API & Data Integration (GraphQL, REST)
- Robotic Process Automation (BluePrism, WinAutomation)
- Object-Oriented Programming (Java)
- Cloud & Scripting Fundamentals (AWS, Python)
- Agile Methodologies & Team Collaboration
- Database Knowledge (SQL, MS Access)
- Hard Worker & Quick Learner

PROFESSIONAL EXPERIENCE

Software Developer Senior Analyst August 2024 – Current
NTT Data (Halifax, Nova Scotia)

- Maintain and optimized Excel formulas and VBA scripts to calculate defined benefits for participants
- Conducted code reviews to ensure accuracy and compliance with project standards
- Documented issue resolutions and fixes for knowledge sharing and future developer reference

Software Developer July 2022 – April 2024
Bluelight Analytics (Halifax, Nova Scotia)

- Developed and maintained an Angular dashboard to display customer data
- Enhanced a GraphQL API functionality to meet evolving requirements
- Conducted code reviews for Angular and Node.js projects to ensure quality and consistency

Developer**June 2017 – July 2022**

IBM (Bedford, Nova Scotia)

- Created the monthly production support coverage schedules for the RPA team
- Assisted in the breakdown of tasks for RPA processes to be easier to develop
- Developed RPA solutions across multiple projects using BluePrism and WinAutomation to automate manual processes (e.g., report handling, account management)
- Built a proof-of-concept mobile app using Angular (v7) and Cordova to notify users near high-risk locations
- Led a small development team (2–3 members) for three months and collaborated with a larger team of five developers/testers
- Shared RPA expertise by mentoring colleagues, troubleshooting issues, and delivering internal knowledge sessions
- Assisted in creating, delivering, and improving training courses for RPA process controllers
- Completed training in Automation Anywhere to expand automation capabilities

ACADEMIC & OTHER EXPERIENCE

Developer (NSCC Work Experience)**April 2017 – May 2017**

NTT Data (Halifax, Nova Scotia)

- Updated and redesigned an internal website by revamping HTML structure and improving CSS styling
- Analyzed Java code (Spring and Hibernate) to identify and implement accurate data updates
- Added comprehensive comments to previously undocumented code for better readability
- Created detailed documentation outlining website functionality to support future maintenance

Race Management Officer (Seasonal)**September 2015 – September 2017**

Armdale Yacht Club (Halifax, Nova Scotia)

- Collected and verified race participant information
- Reviewed and understood the course selected by the Principal Race Officer
- Managed the official 5-minute race start sequence with precision
- Ensured all boats completed the course in compliance with race rules
- Recorded and scored finishing positions using Sailwave race scoring software
- Prepared and delivered accurate race results to the Principal Race Officer

COMMUNITY & VOLUNTEER SERVICE

Participant

2003 – 2016

Girl Guides of Canada (Ottawa, Ontario and Bedford, Nova Scotia)

- To support youth development, leadership skills, and community engagement through mentorship and organized activities.
- Awarded the **Canada Cord**, the highest recognition for youth members of Girl Guides of Canada
- Received the **Gold Chief Commissioner's Award** for exceptional leadership and service within Girl Guides of Canada

Volunteer

2017 – Current

Ember Leader for Girl Guides of Canada (Bedford, Nova Scotia)

- Collaborated with other leaders to develop the annual plan and adjusted it as circumstances evolved. Facilitated meetings, communicated updates via email to parents, and provided timely and appropriate responses as needed.
- Took a year off from day-to-day Guider duties for the 2024-2025 year and planned the yearly campfire, as well as stepped in to assist other Guiders/units when needed.

Volunteer

2017

NSCC IT Job Fair (Halifax, Nova Scotia)

- Assisted in coordinating the NSCC IT Job Fair by engaging with companies, leveraging professional contacts to obtain accurate information, promoting the event to NSCC students, participating in team meetings, and managing deliverables to ensure a successful outcome.

Volunteer

2016

Inventory of Select HRCE Libraries (Halifax, Nova Scotia)

- Supported library operations at Duc d'Anville Elementary, Clayton Park Junior High, and Fairview Junior High by scanning books on shelves and assisting the library technician as needed

Volunteer

Yearly 2015 – Current

First LEGO League Pit Runner (Acadia University, Wolfville, Nova Scotia)

- Guided junior high student teams from their pit areas to competition locations throughout the event day.

CERTIFICATIONS

- Class 5 Driver's License
- First Aid Certified (Children's CPR)
