WORK EXPERIENCE

Nova Scotia Health Association

Halifax, NS

OPOR - At the Elbow Support Consultant

Nov 2025 - Present

- Provided real-time, on-site “At-the-Elbow” support for Nova Scotia Health’s OPOR Clinical Information System (CIS) during Go-Live/hyper phase, quickly troubleshooting user issues to minimize workflow disruption.
- Rapidly learned complex OPOR CIS workflows under tight timelines.
- Documented incidents and escalations in the Assyst ticketing system, coordinated with ATE Leadership/Command Centre for complex issues, and delivered end-of-shift reporting on trends, resolutions, and user feedback.

SAS Retail Services

Halifax, NS

Team Lead Merchandiser

May 2023 - Present

- Responsible for ensuring merchandise resets meet customer and client expectations in line with approved planogram schematics and store management approval.
- Executed resets and relines for over 500 planograms, ensuring all items were tagged according to corporate guidelines.

University First Class Painters

Halifax, NS

Project Manager

Apr 2017 - Apr 2023

- Developed leadership skills by assigning daily tasks to the team to finish projects within budgeted time.
- Trained new painters on proper techniques, responsibilities, and safety measures to ensure a successful season.
- Maintained a 98% customer satisfaction rating, demonstrating a commitment to outstanding customer experiences.

PROJECT EXPERIENCE

Dalhousie University

Halifax, NS

Grade Guru - Full Stack Development

Jan 2025 - Apr 2025

- Developed Grade Guru, a full-stack academic tracking platform using React, FastAPI, Firebase, and Docker in a microservices architecture.
- Implemented secure user authentication and real-time data handling with Firebase Auth and Firestore.

Dalhousie University

Halifax, NS

Navigate Dal - UX/UI

Jan 2024 - Apr 2024

- Collaborated with a small group to iteratively design a prototype for indoor navigation, leveraging structured interviews and contextual inquiries to address student navigation challenges.
- Designed and evaluated features such as "Landmark Utilization," "I'm Lost," and "Configure Instruction Frequency" to enhance accessibility and user experience.
- Conducted cognitive walkthroughs with evaluators, identifying critical usability improvements and proposing actionable design enhancements.

Dalhousie University

Halifax, NS

The House On Memory Lane - Video Game Design

Jan 2023 - Apr 2023

- Designed and developed the game’s storyline, ensuring engaging narrative progression and character development.
- Created level layouts and environmental design to enhance gameplay flow and player experience.
- Implemented core coding logic, including mechanics and game interactions.
