EXPERIENCE

Freelance Multidisciplinary Designer

April 2023 - Current

Collaborate with clients across industries to deliver brand, digital, and visual design solutions from discovery through execution, with a strong emphasis on clarity, care, and detail.

- Led branding identity development for a B2C SaaS interior décor brand, supporting the full rebrand process from intake to launch
- Designed motion graphics and video content for digital campaigns and presentations
- Produced print and digital assets including posters, stickers, and visual collateral across varied styles and audiences
- Currently collaborating with an aspiring architect on 3D models for renewable-energy housing, the branding of an upcoming consultation service and a racing team

Canadian Undergraduate Conference on Artificial Intelligence (CUCAI)

Multidisciplined Designer

June 2024 - March 2025

Product Designer

June 2023 - March 2024

Supported a national, interdisciplinary conference focused on innovation, accessibility, and community-building through strategic design and campaign execution.

- Contributed to brand development and marketing materials, including branding booklets and sponsorship packages
- Designed social media shareables and digital campaign assets to increase awareness and attendance
- Created motion design and animated videos featured in CUCAI opening ceremonies
- Collaborated cross-functionally with marketing, strategy, and product teams
- Designed front-end prototypes and web experiences for the official CUCAI website, used by 340+ conference attendees
- Applied problem-solving and user-centered design to meet diverse stakeholder and attendee needs

Skill Squirrel

UX/UI Designer

May 2023 - August 2023

Worked within a product team to design user-centered solutions aligned with company values and business goals.

- Co-led user research, journey mapping, and prototyping initiatives
- Developed value propositions grounded in market research and customer needs
- Designed user flows with attention to edge cases and inclusive user experiences
- Supported iterative design processes through collaboration and feedback cycles

EDUCATION

Sheridan College

Bachelor of Interaction Design

2019 - 2024, Oakville, Canada
