PROFESSIONAL EXPERIENCE

2023 - Present Head of Cybersecurity & Cloud Development

IREGAINED INC.

📍 SUDBURY, ON, CAN

- Define and implement the organization's cybersecurity strategy and framework.
- Establish and enforce security policies, standards, and procedures.
- Manage compliance with industry standards (e.g., ISO 27001, NIST, GDPR).
- Provided scientific mentorship to aspiring inventors and students.
- Lead the architecture, design, and development of cloud-native applications.
- Implement multi-tenancy in cloud applications to ensure resource isolation and security for different customers or user groups.
- Ensure scalability, performance, and cost-optimization in cloud environments.
- Actively mentored co-op students and interns, guiding their professional development and providing hands-on assistance with project tasks to help them succeed within the team.

2022 - Present Software & IT Contractor

ALGOLIBRE INC.

📍 REMOTE

- Contributed to the development of various software, such as dental software.
- Took on various web development projects such as creating cross platforms with Tauri, React, TypeScript etc.
- Handled various IT and networking installations for dental offices.

2021 - 2023 Software Developer

IREGAINED INC.

📍 SUDBURY, ON, CAN

- Led game development efforts for several months, designing and creating tools to streamline the development process. Successfully onboarded a successor, providing comprehensive training and transferring all relevant tools and documentation to ensure a smooth transition.
- Led the initiative to run games via a web browser, managing the entire process from implementation to deployment. Additionally, played a key role in troubleshooting performance issues, working closely with our web provider to identify and resolve inefficiencies caused by excessive Cron jobs.
- Designed and implemented various features within the Android application, many of which involved networking functionalities such as cloud-based APIs and short-range offline communication with on-premise devices. Extensive experience with modern development tools, including Jetpack Compose, to ensure high-quality and maintainable code.

2020 - 2021 Web & Database Intern

VOIP COMPANY BASED IN AUSTIN, TEXAS

📍 REMOTE

- Engaged in informal learning continuously enhancing my technical expertise and adapting to industry best practices.

EDUCATION

2017 - 2021 Bachelor of Computer Science - 4 years (Honours)

LAURENTIAN UNIVERSITY

📍 SUDBURY, ON, CAN
