PROFESSIONAL SUMMARY

Full-Stack Web & App Developer with 4+ years of experience specializing in C#, .NET, and MAUI development, complemented by a strong background in IT support and systems administration. Skilled in building responsive, cross-platform applications, managing Azure cloud services and DevOps pipelines, and integrating RESTful APIs to deliver scalable business solutions. Experienced in Microsoft 365 administration, workstation setup, and troubleshooting, bringing a unique blend of development expertise and technical support to optimize performance across both software and infrastructure.

WORK EXPERIENCE

Nextart

Toronto, Ontario

Full Stack Web Developer

October 2020 – Present

- Designed and implemented back-end system enhancements and front-end features for high-traffic websites, resulting in improved user engagement and increased web traffic.
- Administered Azure DevOps, including repository management, TFVC setup, workflow tracking through boards and work items, and deployment pipelines for testing and production.
- Co-managed the migration of a virtual machine database to Azure App Services, improving scalability and reducing infrastructure costs.
- Developed and updated responsive webpages using C#, .NET, and HTML/CSHTML, optimizing layouts for homepage, product views, and checkout flows to enhance user experience across devices.
- Modified system administration tools by adding catalog fields and updating XML import/export logic, streamlining bulk product uploads to the database.
- Collaborated in team briefings, presenting code deployments, gathering feedback, and contributing design recommendations adopted in final releases.

IT Support Specialist

July 2023 – Present

- Configured new employee workstations, ensuring smooth onboarding and minimizing downtime.
- Performed ongoing workstation maintenance, applying software patches, upgrades, and resolving hardware/software issues to ensure optimal performance.
- Administered Microsoft 365 accounts, including user provisioning, permission management, and license compliance.
- Delivered on-site IT support, troubleshooting technical issues and reducing disruptions to daily operations.

TECHNICAL EXPERIENCE

Projects

- **Data-Fetcher Application** – Developed a Java application that retrieved and processed data via the World Bank RESTful API and displayed results through interactive graphs, enhancing data visualization to support better decision-making and improve usability.

EDUCATION

York University

Toronto, Ontario

Bachelor of Arts in Computer Science

June 2023

- **Relevant Coursework:** Software Design / Databases / UI/UX / Web Development

LANGUAGES, TECHNOLOGIES, & SKILLS
