EXPERIENCE

PARALLEL STUDIOS | UNITY SOFTWARE ENGINEER

September 2024 - June 2025

- Overhauled key UI and UX systems in Parallel TCG to enhance player experience and improve player retention.
- Actively participated in code reviews, providing constructive feedback and maintaining high coding standards.
- Improved game stability to ensure the continuous shipping of a high quality product and ensure player satisfaction.
- Proven ability to work effectively both independently and as part of a collaborative team.

POPREACH GAMES | UNITY DEVELOPER

October 2021 - August 2023

- Contributed to the development of PAYDAY: Crime War, implementing various gameplay features.
- Overhauled the character controller, resulting in improved player movement, responsiveness, and overall game feel.
- Networked various in-game features, optimizing multiplayer functionality and enhancing player interaction.
- Identified and optimized performance bottlenecks in critical areas of the codebase, leading to substantial improvements in game performance.

PROJECTS

UNTITLED ROGUELIKE GAME | C#, GODOT

2024

- Solo designing and developing a coop roguelike hack-and-slash game, focusing on chaotic couch-coop interactions.
- Designing and implementing combat with an low skill floor for new players to pick up, but a high skill ceiling to keep player engagement.
- Implementing randomly generated worlds to add replayability and have each playthrough be completely unique.

WASTELAND WARRIORS | C++, OPENGL, PHYSX

2019

- Designed and developed a physics-based driving game from scratch, showcasing advanced graphics and haptic feedback techniques.
- Added deferred rendering to optimize rendering performance and enable complex visual effects.
- Incorporated variance shadow maps to achieve accurate and dynamic shadows, improving overall scene realism.

SKILLS

PROGRAMMING

- C#
- C
- C++
- Python
- Java
- Shell
- GLSL
- L^AT_EX

ENGINES

- Unity3D
- Unreal Engine
- Godot

TOOLS/LIBRARIES

- Photon Fusion
- Git
- PlayFab
- Jenkins
- OpenGL
- PhysX

SPECIALTIES

- Object-Oriented Programming
- Graphics Programming
- Problem Solving
- Debugging
- Networking
- Reactive Programming
- Async Programming

OPERATING SYSTEMS

- Arch Linux
- Fedora
- Ubuntu
- Windows

EDUCATION

UNIVERSITY OF CALGARY

BACHELOR'S IN COMPUTER SCIENCE
Jan 2016 - Feb 2021
