Summary

Cloud Engineer specializing in automation, cloud infrastructure, and CI/CD. Proven expertise in designing scalable Azure systems, maintaining AWS web services, and building resilient pipelines with GitHub Actions & Azure DevOps for web app, Terraform and Kubernetes. Demonstrated success in reducing costs, improving reliability, and embedding security throughout the development lifecycle.

Experience

Associate System Engineer Verra Mobility *Toronto, CA* **03/2024 – 12/2025**

- Developed **PowerShell & Batch** scripts integrating WinRPC and REST APIs to remotely troubleshoot and monitor file transfer systems in air-gapped environment, delivering daily status reports and **achieving \$80K in annual savings** by replacing enterprise software.
- Prevented a major AWS production outage by diagnosing and resolving a complex Docker iptables issue during Jira CAB release.
- Built a centralized **data visualization and reporting infrastructure** in **Grafana** for 400+ IoT devices, utilizing vSphere API, shell script and HTTP probes to proactively identify and resolve availability issues.
- Secured external connectivity via **FortiGate** NGFW (GRE/IPsec VPNs) and **Palo Alto** firewalls for government partner access control.
- Maintained Cisco inter-VLAN **ACLs** across core/access layers and implemented VSF & VSX high availability for continuous uptime.
- Provided feedback and feature requests that implemented folder name validation and enhanced Grafana logging after a 150GB file deletion incident; developed a recovery **script** to restore data from IoT devices and **prevented \$120K loss** overnight.

Solution Consultant & System Engineer Global Technology Integrator Ltd. *Hong Kong* **08/2021 - 07/2023**

- Engineered and maintained comprehensive CI/CD pipelines using **GitHub Actions/Azure DevOps** to automate **Terraform IaC** and application deployments to **Azure App Service** and **AKS**, ensuring reliable and rapid releases.
- Designed and implemented a **Landing Zone** for enterprise **AVD platform serving 3200 users**, securing access with zero-trust Zscaler and optimizing cost-performance for FSLogix profiles using Azure premium storage to ensure high-quality user experience.
- Integrated security scanning into CI/CD pipelines** by configuring GitHub Actions to run **SemGrep (SAST)** scans, automatically generating OWASP/SANS CWE reports for developer triage.
- Implemented and enforced OS security hardening via Group Policy Objects (GPO) aligned with the CIS Windows Server benchmark, **automated compliance validation** using Tenable Nessus, and **remediated vulnerabilities** closing critical compliance gaps.
- Orchestrated the **migration of 300+ VMs from VMware and AWS to Azure**, reducing infrastructure costs by 33% through right-sizing and Reserved Instances, validated via Microsoft FastTrack; Led cloud transformation engagements driving **\$3.7M in annual revenue**.

System Engineer Macroview Telecom Ltd. *Hong Kong* **07/2020 - 07/2021**

- Deployed and configured **CyberArk** Privileged Access Management (PAM) solutions on **Azure** and **on-premises**, automating password management and session controls for 8 global regions, **driving \$550K in revenue**.
- Owner of ServiceNow helpdesk, triaging and resolving incidents and service requests for security appliances in an on-call rotation.

Education

Bachelor of Engineering The Hong Kong Polytechnic University **09/2017 - 06/2020**

- Major in Industrial and System Engineering, 3.63 out of 4.00 GPA
- Awarded Dean's Honours List in 2019/20, 3 scholarships on academic excellence and 1 scholarship on contribution in community service

Certification

Linux Foundation (CNCF) Certified Kubernetes Administrator (CKA)	12/2023
Google Google Cloud Certified - Professional Cloud Architect	10/2022
HashiCorp Certified: Terraform Associate (002)	07/2022
AWS Certified Solutions Architect – Professional	06/2022
Microsoft Certified: DevOps Engineer Expert (AZ-400)	12/2021
Microsoft Certified: Azure Solutions Architect Expert (AZ-305)	09/2021

Additional credentials include Microsoft certifications in cloud infrastructure (**AZ-104**), network (**AZ-700**), artificial intelligence (**AI-900**), Azure Virtual Desktop Specialty (**AZ-140**), Azure IoT Developer Specialty (**AZ-220**), Security and Identity (**AZ-500**, **SC-200**, **SC-300**, **Cloud Security Alliance CCSK**); **CyberArk** PAM CDE; **OPSWAT** Associate; and Power Platform certifications (**PL-900**, **PL-200**, **PL-600**).
