WORK EXPERIENCE

Project Manager – Toronto Parking Authority, Toronto, ON June 2023 – Present

- Managed 15 capital projects valued at \$100 million across 40 sites, including structural rehab, surface lots, accessibility upgrades and electric vehicle (EV) infrastructure
- Delivered 130 EV charging stations four months early and 20% under budget, saving \$250K+ and supporting city net zero goals
- Led 30+ engineers, consultants and contractors; resolved 50+ RFIs and improved coordination efficiency by 18%
- Administered 25+ RFPs and RFTs totaling \$150 million, managing negotiations, change orders, payment certifications and contract compliance
- Produced executive board memos, PowerBI dashboards and KPI scorecards to support senior leadership and City Council reporting
- Resolved site issues promptly to maintain schedule adherence and client satisfaction
- Oversaw construction from layout to finishing, ensuring compliance with drawings and specifications

Estimator Coordinator – KAPP Infrastructure, Vaughan, ON Jan 2023 – June 2023

- Led estimating for municipal tenders up to \$50 million, improving pricing accuracy using benchmarked production rates and cost data
- Identified scope gaps and design inconsistencies, reducing pricing risk and change order exposure
- Secured 20+ subcontractor and supplier quotes per tender and negotiated pricing that lowered costs by 8%
- Implemented risk adjusted pricing strategies that reduced total bid costs by 12%
- Delivered 100% on time submissions with organized schedules, milestones and tender packages

Assistant Project Coordinator – City of Brampton, Brampton, ON May 2022 – Jan 2023

- Supported delivery of 25+ municipal capital and state of good repair (SOGR) projects totaling \$80 million across civic and emergency service facilities
- Completed engineering assessments, estimates, space planning, and lifecycle analysis to support budget decisions
- Coordinated with architects, engineers and internal departments to align design intent with operational needs
- Prepared RFP and RFQ procurement packages and supported consultant evaluations in compliance with policy
- Conducted site inspections and QA/QC reviews, contributing to health and safety rules resulting in zero safety violations
- Coordinated MEP sequencing for electrical rooms, HVAC systems, generators and controls
- Maintained daily logs, progress reports, procurement tracking and closeout documentation

Traffic and Transportation Engineering Analyst – City of Greater Sudbury, Sudbury, ON May 2021 – Aug 2021

- Prepared conceptual and functional roadway and rail design layouts supporting municipal capital planning
- Produced traffic signal layouts and drafted signal plant drawings for roadway upgrades
- Conducted transportation planning studies, technical reviews, and compliant investigations for Council reports
- Assisted in developing SOPs, regulatory reports and engineering documentation
- Supported procurement through requisitions evaluation and engineering assistance

TECHNICAL SKILLS

- 5+ years delivering municipal, infrastructure, construction and technology projects from planning to closeout
- Strong stakeholder engagement, budgeting, scheduling, procurement, risk management and executive level reporting
- Proficient with AutoCAD, MATLAB, Python, Java, SAP, Jira, Primavera P6, Bids and Tender, MERX
- Skilled in tender development, estimating, contract administration, QA/QC and compliance with Building codes, municipal by-laws, Occupational Health and Safety Act (OHSA), Accessibility for Ontarians with Disabilities Act (AODA)
- Proactive and self-driven, performing well in fast-paced settings and collaborating effectively with cross-functional teams
- Strong technical report writing and executive documentation skills, strong and excellent analytical, interpersonal, communication and problem-solving skills

- Participate in development of technical content for projects, preparation of reports and presentations and collaboration with other project disciplines
- Willing to travel to sites. Own a personal vehicle and have a valid G driver's license

CERTIFICATIONS

- Engineering-In-Training (EIT) - PEO | Project Management Professional (PMP) | WHMIS | Working at Heights | Construction Law Certification | Certified Scrum Master (CSM) | CompTIA Security+

EDUCATION

Bachelor of Civil Engineering (Co-op)
York University, Toronto ON

Graduated 2022
