- Deployed Cisco Meraki firewall, switch, and access point solutions across 500+ sites.
- Implemented TP-Link Omada networking solutions for small to medium-sized businesses.
- Managed Unifi firewall and network equipment deployments.
- Administered VMware and Proxmox environments.
- Configured and managed site-to-site and client VPNs, securing remote access for over 300 users.
- Deployed and administered Mitel MiVoice and MiCollab systems.
- Conducted VoIP troubleshooting and deployments, resolving issues for clients and optimizing call quality.
- Managed Windows Server and Exchange environments, including AD administration.
- Provided remote support via ScreenConnect/TeamViewer/AnyDesk.
- Automated RMM deployment and configuration processes.
- Utilized Wireshark for network troubleshooting, resolving VoIP and network issues.
- Administered ticketing system.

Computer Service Technician/Customer Service Representative

Canada Computers - Ajax, ON

March 2019 to December 2019

- Diagnosed and resolved software and hardware issues for desktops, laptops, and various electronic components.
- Performed data recovery on failing drives and flash media.
- Imaged and deployed desktops and laptops.
- Troubleshooted and installed Windows 7, 8/8.1, and 10 environments.
- Provided remote support to customers using ScreenConnect, resolving technical issues for clients.
- Configured customer routers for plug-and-play deployment, enhancing network performance and configurations.
- Specified and built custom desktop systems, meeting client specifications and performance requirements.
- Educated customers on new device usage.
- Managed returns, exchanges, and RMAs for defective products, ensuring swift resolution and maintaining customer satisfaction.
- Supported sales associates with performance comparison and compatibility information.
- Sourced replacement parts for various electronics, ensuring timely repairs and minimizing client wait times.

IT Support

Simcoe Hall Settlement House - Oshawa, ON

August 2015 to December 2019

- Recommended and implemented system and network improvements.
- Diagnosed and resolved hardware, software, and network issues, reducing system downtime.
- Maintained and administered computer networks and systems.
- Supported and migrated desktop environments from Windows 7 to Windows 10, ensuring smooth transitions and data integrity.
- Established backup procedures for user data and incremental system images, enhancing data security and recovery processes.

Installer

RenPark Security Inc - Mississauga, ON

August 2010 to March 2019

- Demonstrated device functionality to customers, ensuring proper usage and reducing support calls.
- Mounted and installed control panels, contacts, sensors, cameras, and card access systems.
- Migrated legacy systems to new hardware using VMware, enhancing system performance and reliability.
- Created virtual environments on employee laptops for legacy system interaction, improving workflow and system compatibility.
- Provided remote support to customers and employees using ScreenConnect, resolving technical issues.
- Installed and managed card access servers and camera playback devices, optimizing security infrastructure and user accessibility.
