OBJECTIVE

Security Operations Center (SOC) Engineer with 3+ years of experience monitoring, analyzing, and responding to security incidents in enterprise NOC/SOC environments. Strong hands-on expertise in firewalls, IDS/IPS, SIEM, VPN technologies, and vulnerability management. Experienced in supporting 24x7 SOC operations, incident triage, firewall policy management, and remediation across NGFW Azure, AWS, Cisco, Palo Alto, FortiGate, and Check Point platforms. Proven ability to collaborate with cross-functional teams of multiple country stakeholders, maintaining operational SLAs, and secure large-scale infrastructures

EXPERIENCE

Jun 2022 - Dec 2023

- **L1 - Security Operation Center Engineer**
Tata Consultancy Services, Chennai, India

- Supported 24*7 SOC operations for enterprise across banking, retail, aviation and telecom sectors.
- Worked as SPOC for internal SOC activities with stakeholders across multiple countries.
- Managed and supported hybrid security environments using NGFW Azure, AWS, Palo Alto, Cisco, FortiGate, and Check Point Firewall.
- Led firewall migration, backup, firmware upgrades, Zscaler proxy traffic change validation activities.
- Configured and maintained security policies, SIEM, ACLs, NAT, VPN tunnels (IPSec & GRE).
- Conducted vulnerability assessments aligned with NIST CVE standards using QRadar.
- Managed and resolved on-call incidents and change requests for multiple Tier-1 enterprise clients such as Vanguard, CIBC, BMO, TD, RBC, Nielsen, Rogers, Walmart, Comcast, State Street and others.
- Supported IDS/IPS, Syslog integration, hardening reports, BCP planning, and closure documentation.

May 2021 - May 2022

- **L0 - Network Engineer**
Capgemini, Chennai, India

- Provided Level-0 security and network monitoring support for internal enterprise environments.
- Assisted NOC teams with incident escalation, SIEM tools, access control validation, and network troubleshooting.
- Supported configuration and monitoring of routers, switches, servers, firewalls, wireless APs, and voice gateways.
- Ensured redundancy, configuration synchronization, and power failover across security devices.
- Resolved LAN, STP, VLAN, and restricted-access issues in compliance with security policies.
- Performed monthly & quarterly preventive maintenance and configuration audits.

Dec 2020 - Apr 2021

- **L1 - Field Network Engineer**
Telesconic Network - Airtel, Chennai, India

- Team Lead of five technicians to meet monthly installation and maintenance targets.
- Handled ONT as Nokia, Huawei and Sercomm
- Performed fiber splicing, fault isolation, and signal testing.
- Installed and configured ONT, DSL, and ADSL routers with voice connectivity.
- Hands on experience such as power meters, tone testers, splicing machines, cleavers, and crimping tools.

SKILLS

- IDS / IPS, SIEM, Syslog
- Networking (DNS, TCP/IP, App-Id)
- VPN: IPSec, GRE
- Security (Zscaler, QRadar, DLP)
- NAT (SNAT / DNAT) ACL, PBR
- Routing & Switching
- NGFW - Azure & AWS, Cisco Nexus / Palo Alto / Fortigate / Checkpoint
- BCP, CRM, RCA

EDUCATION

May 2025 - Jan
2026

- **York University, Toronto, ON**
Post Graduate Certificate - Digital Marketing

Sept 2024 - Apr
2025

- **George Brown College, Toronto, ON**
Post Graduate Certificate - Project Management

CERTIFICATIONS

- - CCNA (200-301) - Network Rhinos
 - CCNP (300-410) - Network Kings
 - Palo Alto (PCNSE) - Network Kings
 - Agile Project Management - Atlassian
 - CAPM - Udemy
 - Google Analytics- Google Skillshop
 - Blockchain - IBM

PROJECTS

- **Digital Marketing Capstone Project - Web Development & SEO Dermoflo Skincare (Toronto-based) York University - Dec 2025**
 - Developed a brand website and published two SEO-optimized blogs as a capstone project.
 - Conducted keyword research, content strategy, and technical SEO using Google Keyword Planner, metadata optimization and structured content.
 - Performed website performance and compliance testing (HTML validation, page speed, and performance testing using Web.dev, Google HTML Test, and PageSpeed Insights).
