PROFESSIONAL SUMMARY

IT Operations and Network Services Professional with over five years of experience supporting, coordinating, and leading enterprise network and infrastructure environments. Strong background in network security, cloud integration, systems administration, and operational service delivery. Proven ability to plan, organize, and support IT operations, mentor technical staff, manage vendors, and act as an escalation point for complex technical issues. Experienced in large-scale infrastructure modernization, security best practices, and cross-functional collaboration. Bilingual in French and English.

TECHNICAL SKILLS

Network & Infrastructure: Fortinet NGFW / SD-WAN (FortiGate, FortiSwitch, FortiAP) | Cisco Networking | TCP/IP, VLANs, OSPF, BGP | VPN (IPSec / SSL) | Firewall Policy & Security Controls

Systems, Cloud & Data Centre: Microsoft Azure (IaaS, Networking, Hybrid Environments) | Windows Server | Active Directory | Group Policy | VMware ESXi | Hyper-V | IGEL OS (Thin Clients) | PowerShell Automation

Operations & Monitoring: SolarWinds | PRTG | FortiAnalyzer | SNMP Monitoring | Incident Troubleshooting | Root Cause Analysis | Technical Documentation (Visio, SOPs, Diagrams)

Languages: French (Fluent) | English (Fluent)

PROFESSIONAL EXPERIENCE

Computer Network Support Specialist

Giant Tiger – Ottawa, ON | 2022 – Present

- Support and coordinate enterprise network and infrastructure operations across 200+ retail locations, ensuring service availability, security, and performance.
- Act as a senior technical resource and escalation point for complex network, system, and connectivity issues.
- Contribute to infrastructure modernization initiatives including large-scale deployment of Fortinet network equipment.
- Participate in operational planning, change implementation, and risk mitigation for network and systems upgrades.
- Coordinate with vendors and service providers for troubleshooting, procurement, licensing, and service delivery.
- Support Azure cloud integration initiatives including virtual networking and hybrid identity configurations.
- Monitor infrastructure health using SolarWinds, FortiAnalyzer, and SNMP-based tools; proactively identify and resolve issues.
- Maintain detailed technical documentation, standards, and operational procedures to support continuity and compliance.
- Mentor junior staff and collaborate with cross-functional IT teams to ensure consistent service delivery.

IT Tutor

La Cité Collège – Ottawa, ON | 2021 – 2022

- Mentored students in networking, systems administration, and IT fundamentals.
- Explained complex technical concepts clearly to non-technical users and learners.
- Developed structured learning materials to support skill development.

Network & Systems Technician

Office Chérifien des Phosphates (OCP) – Laayoune, Morocco | 2019 – 2021

- Deployed and supported enterprise networked systems including IP surveillance and monitoring platforms.
 - Participated in planning and implementation of structured cabling, fiber optics, and network infrastructure.
 - Troubleshoot system, network, and application-level issues in operational environments.
 - Documented infrastructure configurations and operational procedures.
-

TECHNICAL PROJECTS

Store Infrastructure Modernization (SIM)

Giant Tiger | 2022 – Present

- Supported the enterprise-wide upgrade of store network infrastructure to a Fortinet-based architecture (NGFW, FortiSwitch, FortiExtender, FortiAP) to enhance security posture, high availability, and network performance across retail locations.

IGEL Endpoint Transformation Project

Giant Tiger | 2022 – Present

- Contributed to the planning, configuration, and deployment of IGEL OS across store environments, migrating from traditional Windows endpoints to a centralized thin-client model to improve operational efficiency, security, and manageability.

Application Development Projects

- Designed and developed an Android application using Kotlin, MVVM architecture, and Room database, integrating RESTful APIs with a focus on scalability, maintainability, and clean code practices.
-

EDUCATION

Master of Applied Science (MASC), Electrical & Computer Engineering (Thesis – Part Time)

University of Ottawa | Winter 2026 – Present

College Diploma, Computer Systems Technology

La Cité Collège | 2022

Professional Bachelor’s Degree, Computer Networks & Telecommunications

University of Saint-Quentin-en-Yvelines, France | 2019

CERTIFICATIONS

- Fortinet Certified Professional – Network Security | 2025
 - Cisco Certified Network Associate (CCNA) | 2018
-

VOLUNTEER EXPERIENCE

IT & Design Mentor – Learning Lions, Lodwar, Kenya | 2018

- Led workshops on IT fundamentals and digital design.
- Created accessible technical learning content adapted to varying skill levels.
