

Oswaldo Perez

Network and Security Engineer

Montreal,
MBA,CCNA, CCNP, ITIL, FCP

SKILLS

OS : Windows 7, 8 et 10, Windows Server 2008, 2012, 2016, 2019, Linux (Ubuntu), MS project, MS Office.

Networking : DHCP, DNS, Routing (RIP, EIGRP, OSPF, BGP, VRF), Switching (VLAN, Etherchannel, VPC, VSS, STP, VTP, CDP, SPAN, RSPAN), ACL, VPNs (L2L, remote access et DMVPN)

Routers : Cisco ISR 4221, Cisco (800, 2900, 1800, 1700 1900) series, Audiocodes Mediant 500, Mediant 800, Adaptive Networks Load Balancers ELFIQ (Edge, E-50, Core Units)

Software-defined networking (SDN) : Adaptive Network SD-WAN

Switches : Cisco Catalyst (2960, 2950, 3850, 4500X, 6500X,) Cisco SG100, SG200, SG300 series, Cisco Catalyst (9200, 9300) series

Firewalls : NGFW Fortigate (80X, 200, 2000X) series, CISCO ASA

Wireless : Access Points C9120AX, Wireless Controller 9800-40

Software : Secure CRT, PUTTY, GNS3, SQL, Shell, Filezilla, tfpd32, 3C Daemon

Télécommunication : HLR, Oracle (CRM : Siebel), Cx (Ericsson), Huawei SBC, GENBAND CS2K, Nokia ISAM V, Legacy Switches 5ESS, DMS 100, GTD5, DLC AFC.

Cloud : Cisco Broadsoft Hosted PBX. Cisco WEBEX

Virtualisation : VMware, Oracle Virtual Box, ESXi, Workstation

Monitoring : PRTG, Zabbix

CERTIFICATES

- | | |
|--|------|
| • Fortinet Certified Professional Network Security | 2025 |
| • Cisco Certified Specialist Collaboration-Core | 2023 |
| • Microsoft Certified Azure Administrator Associate | 2021 |
| • NSE4 Network Security Professional | 2021 |
| • CCNP Certification | 2020 |

HIGHLIGHTS OF QUALIFICATIONS

Electric and Telecommunications Engineer with 20+ years experience successfully leading projects of Cloud Hosted PBX, Fixed Telephony, Legacy Switches, IMS and VOIP networks. Cloud network and Managed Services, Support Sales teams, good problem solver and excellent technical skills with a consistent track record of successfully completing duties and projects on time and under budget without compromising quality. This includes:

- 2+ years of experience in SD-WAN and Load Balancers
 - Adaptiv Networks: Load Balancers Elfiq LBX 900, Edge, E-60, Core
 - Adaptiv Networks: SD-WAN, SD-Internet E-40, OLG/ LTE sites
- 8+ years of experience in Cloud Services and Hosted PBX
 - Management and deployment of Hosted PBX Services
 - Create Documentation for new Services (Hosted PBX) and Training Tiers 1 and Tiers 2.
 - Routing and Switching deployment:
 - Sip Trunking Integration with Asterisk Call Center (Issabel)
 - Design, network Diagrams and New Products Documentation and Training
 - Experience designing Cisco OSPF, BGP, VRRP, Spanning Tree, Trunking, Vlan, EtherChannel
 - IP Telephony homologation and testing Cisco, Grandstream, Mitel, Panasonic, Polycom, Astra,
 - Provisioning and Support Audicodes Mediant 500 for Customers
 - Provisioning and Configuring ONT Huawei for Hosted PBX.
 - Configuring Softphones for UC service (Broadsoft UC_ONE)
 - Create Documentation for new Services (Hosted PBX) and Training Tiers 1 and Tiers 2.
- 4+ years of experience in Switching Translations and deployment on new IMS Core and Hosted PBX Systems:
 - Translations and Configurations of Broadsoft Hosted PBX Solutions at Claro Dominicana
 - Translations and Configurations in C4 Genband Switch Lines and Sip Trunk Systems.
 - Translations with IMS Huawei Core (SPG2800)
 - Code definitions for Legacy Switch Acatel Lucent 5ESS, DMS100
 - T1 Provisioning for Lucent 5ESS and DMS100
 - Local Number Portability Definition for Legacy Switch
 - Ericson MSC Code Definition for Mobile Switching
- 7 years of experience in Project Deployment Fixed Telephony and Testing System :
 - New generation systems Genband Core Equipments (Passport, MG15K, Test System)
 - Access equipments (ALU ISAM V, K Mile, MG9000, RSC, DLC)
 - Anymedia Gateway Deployment
 - Deploy and Support Telephone Testing System (Tollgrade LDU50)
 - Deploy and Growth New legacy Switches Services, 5ESS Cabinets, Nortel SPM.
 - Installing and Deploy DLC AFC for fixed lines.

PROFESSIONAL EXPERIENCE

Network Consultant

Jan 2024 - Present

RAMQ (Montreal, CA)

- Configuration of security rules in Fortigate VMs
- Operation and configuration of HAPEE load balancers, CISCO ASA, Nexus2348
- Ansible and Playbooks config for network Equipments
- Zabbix project, for network equipment alarm management
- Deployment of Oxidized server to store equipment configuration
- Deployment of Graylog server to store network device syslogs
- Analysis and diagnosis of network problems with Fortianalyzer
- Troubleshooting and internal ticket management for customer support

Network Support Engineer

November 2021-Jan 2024

Adaptiv Network (Montreal, CA)

- Site survey, configuration and provisioning, preparation of Load Balancers documentation.
- Deploy and configure Elfiq Load Balancers Edge Serie, E-60, Core, LBX 2500
- SD-WAN deployment, Configuration and Support
- Update to Load Balancer products, download licenses and configure design.
- Configure various network devices and services like VPN, QoS
- Configure Access to SD-WAN Orchestrator for customers
- Manage Call Center Queue and Support SD-WAN and Load Balancer Customers
- troubleshoot and diagnose network problems for SD-WAN clients and load balancers

General Manager

November 2011-Present

Comenergy Dominicana (Santo Domingo, DR)

- Preparation of the budget for the installation of IT projects
- Management of cabling installation groups, technical installers of routers and data switches
- Preparation of quotations for Data projects
- Project design and work schedules
- Experience leading a team of technicians and contractors for IT projects.
- Accounting and finance management for IT projects

Cloud Network and Managed Services Engineer**October 2016– September 2021****CLARO RD** (Santo Domingo, DR)

Claro is the largest Telecommunications Company of DR with 3,000+ employees and part of América Móvil (AMX), a Mexican telecom group serving clients also in most of all the Latin-American countries. (<http://www.claro.com.do>)

Cloud and Hosted PBX Services, Lines and Trunks Translations of Legacy, New Generation and IMS Switches, new codes and route definition for Local Number Portability. Tech Support of NOC and Hosted PBX clients.

- Deploy Hosted PBX Projects and 3rd Level Support
- Test Engineer of New Products.
- Network design for customer solutions
- New Product Introduction for Hosted Services
- Deploy Perimeter security with Fortinet 50E, 60E, 90E, 100E
- Deploy solutions with Cisco routers 800 and Cisco Sip Telephones for Hosted PBX
- Configure Hosted PBX features (Cisco Broadsoft for customers), Sip Trunking, Bridge,
- Deploy ATA grandstreams GXW4248 for Hosted PBX customers.
- Configure Assistant-Enterprise services for Cisco (Broadsoft Hosted PBX)
- Configure Hosted Mobility Features for Cisco Broadsoft Hosted PBX
- Configure Enterprise features like Hunt Groups, Call Pick up. Call barring
- Deploy Cisco Broadsoft Hospitality Services with Jazzware.
- Level 3 Support in Broadsoft Platform Application Server, Network Server and Media Server
- Deploy Call Broadsoft Call Center and Autoattendant Features.

Software and Translations Engineer**April 2011– October 2016****Claro Dominicana**

- Switch Translations Engineer (VOIP and NGN Switches)
- Ericsson MSC-C Number Translations
- Genband NGN IMS Configuration
- 3rd Level Tech Support of IMS Application Server (SPG2800)
- Perform number portability of fixed and mobile exchanges
- Prepare training for IMS network provisioning
- Provisioning of SIP Trunk and SIP-T at C20 Switch.
- Provisioning new NPA codes in Ericsson Switches and Fixed Legacy Telephone Switches like 5ESS, DMS-100 and GTD5 and Ericsson MSC.

Wireless and Wireline Switch Engineer**April 2004 – April 2011****Verizon Dominican Republic**

Project Engineer

Voice and Data projects installing new sip Switches

- IP Switch Instalations and Site Surveys.
- Capacity Manager Engineer (Traffic Analysis and Switch Performance)
- Gather network KPI metrics and capacity analysis and analysis for Trunking and lines.
- Switch Maintenance (DMS and 5ESS Technologies switches)

- Deploy Nortel SPM for Optical interconnection between sites.
- Deploy Intelligent Services Access Manager (ISAM) Nokia for Voice services
- Deploy Digital Loop Carrier (AFC) for voice networks.
- Installation of structured cabling (CAT 5 and CAT 6)
- Contract management for outsourcing companies

Telephone Switch Technician
Verizon Dominican Republic

April 2002- December 2003

- Field technician for Legacy telephone Switches and Remote sites:
 Lucent 5ESS, Nortel DMS, GTD5 and DLC
- Technician of telephone lines breakdowns
- Maintenance of telephone exchange infrastructures
- Handling of trouble tickets for legacy Switches
