SUMMARY OF QUALIFICATIONS

As a Technology Consultant specializing in Information Security, I have worked with US Federal Agencies and Fortune 500 companies, focusing on cybersecurity. Key responsibilities include incident response, malware analysis, spam monitoring, URL block/unblocking, IT infrastructure support, escalation, recommendation, remediation, and threat intelligence gathering. My expertise includes cybersecurity operations, technical analysis, incident response, communication, and problem-solving.

WORK EXPERIENCE

FREELANCE, Washington, D.C. Metro Area, United States.

JULY 2017 – PRESENT

INDEPENDENT TECHNOLOGY CONSULTANT

- Cyber Security – 24/7/365 SOC/CSOC operations center support role.
- Infrastructure Technology - deployment and enterprise admin support.

DXC TECHNOLOGY, Rockville, Maryland, United States.

JULY 2016 – JULY 2017

TECHNOLOGY CONSULTANT

- I served in a 24/7/365 enterprise cybersecurity role for a US Federal Agency, providing continuous security monitoring and incident response capabilities.
- My primary responsibilities included processing and analyzing spam and phishing emails, conducting thorough incident response activities, and maintaining continuous monitoring protocols in accordance with established Standard Operating Procedures and Service Level Agreements.
- I utilized Splunk SIEM for comprehensive search and research operations, performing detailed event analysis, incident response coordination, and information gathering activities.
- Additionally, I monitored network traffic using RSA Security Analytics and conducted PCAP analysis to identify potential security threats.
- My role required managing Riskvision alerts for blocking and deactivating compromised systems, and I followed established remote wipe procedures for lost and stolen devices to maintain data security.
- Throughout these operations, I managed all related tickets through ServiceNow ticketing systems to ensure proper documentation and tracking of security incidents and responses.

KRATOS SECUREINFO, Washington, D.C., United States.

SEP 2016 – JAN 2017

SECURITY ANALYST

- Worked in a 24/7/365 CSOC cyber security role for a United States Federal Agency.
- ArcSight SIEM events & channel monitoring for incident response.
- Splunk SIEM log analysis, search research and apps monitoring for incident response.
- Continuous VPN connection monitoring to validate RSA tokens.
- Bit9 & Carbon Black, Anomali Threatstream and FireEye CMS events monitoring for incidents response & malicious activities.
- Tickets management on ServiceNow ticketing systems.

HEWLETT PACKARD ENTERPRISE, Silver Spring, Maryland, United States.

FEB 2016 – SEP 2016

TECHNOLOGY CONSULTANT

- Worked in a 24/7/365 SOC enterprise cybersecurity role for a US Federal Agency.
- Spam/phishing emails processing, analyzing, incident response and continuous monitoring per SOP & SLA.
- Splunk SIEM search & research for event analysis, incident response & information gathering.

- RSA Security Analytics network traffic monitoring & PCAP analysis.
- Riskvision, US-CERT alerts monitoring for blocking, deactivating and followed remote wipe procedures on lost and stolen devices.
- Asset Management, identification, locating devices and IP, and Global VPN (IR) monitoring.
- Tickets management on ServiceNow ticketing systems.

MARKMONITOR, INC.- PART OF THOMSON REUTERS, Rockville, Maryland, United States. OCT 2008 – FEB 2016
SECURITY OPERATIONS CENTER (SOC) ANALYST

- In my role as SOC Analyst (lead/supervisor) within the US Private Sector, I was responsible for monitoring internet weblogs and processing URLs for Incident Response through the Security Incident Event Manager (SIEM), focusing on maximizing fraud detection through comprehensive phish-kit analysis.
- My responsibilities included managing tickets through ServiceNow ticketing systems and serving as the primary point of contact for external and internal clients, third-party vendors, ISPs, and Internet Domain Registrars.
- I routinely monitored the functionality, availability, and integrity of SOC critical infrastructure systems, implementing emergency procedures during outages and downtime to minimize productivity impacts.
- Additionally, I trained SOC personnel and compiled Standard Operating Procedures and SOC manuals to ensure consistent operational excellence across the team.

XCELTECH, INC., Tysons, Virginia, United States
IT INFRASTRUCTURE SUPPORT ADMIN

FEB 2008 – OCT 2008

- Provided Level II corporate help desk support, performed systems and network administrator tasks, performed routine maintenance, security administration, upgrades, software installation, troubleshooting, and security policy configuration.

GLOBAL CONSULTING GROUP, Farmington Hills, Michigan, United States
IT INFRASTRUCTURE SUPPORT ADMIN

FEB 2007 – JAN 2008

- Provided Level I corporate help desk support, created user accounts, implemented group policies, performed system upgrades, installed components, and troubleshooted network connectivity and printer issues.

EDUCATION AND TRAINING

MS CYBERSECURITY TECHNOLOGY

University of Maryland Global Campus, Maryland, United States.

Graduate Certificate in Digital Forensics and Cyber Investigation

University of Maryland Global Campus, Maryland, United States.

BACHELOR OF COMPUTER SCIENCE

International University of Business Agriculture and Technology, Bangladesh.

SKILLS AND EXPERTISE

- Cybersecurity Operations: Proficient in managing security operations in a 24/7/365 environment.
- Technical Analysis: Skilled in analyzing malware, SIEM events, and network traffic.
- Incident Response: Experienced in responding to security incidents effectively.
- Communication: Able to communicate complex technical information to both technical and non-technical stakeholders.
- Problem-Solving: Proven ability to analyze problems and develop effective solutions.

PROJECTS

2023 – 2024 **UNIVERSITY OF MARYLAND GLOBAL CAMPUS** United States
Artificial Intelligence (AI) Role in Cybersecurity: Use and Risk Management
Advanced Cyber Threat Intelligence (CTI) Report
Digital Forensics and Cyber Investigations (DFIR)
Penetration Testing Report (PTR)
Security Control Implementation (SCI) Report
Security Assessment Report (SAR)

CONFERENCES AND SEMINARS

2023 – 2024 **SANS INSTITUTE** United States
SANS-CYBERSECURITY-LEADERSHIP-2024 (Credential ID 12924945)
CYBER-THREAT-INTELLIGENCE-2024 (Credential ID 12608430)
AI-2024 (Credential ID 13596305)
APAC-DFIR-2024 (Credential ID 12924895)
OSINT-2024 (Credential ID 11880855)
OCT 2023 **RSAC 365** United States
Risk Management for Mitigation into a Public Cloud Provider
RSA Conference (Credential ID cb34ce45-6782-4071-a163-b1c2e50f46d1)

HONORS AND AWARDS

Achievement Award, SOC Tech of the Year (day shift Q1 2011). January 2011, MarkMonitor, Inc., United States.
Peer Recognition Award, (Q2 2010). May 2010, MarkMonitor, Inc., United States.

NETWORKS AND MEMBERSHIPS

OCT 2008 – FEB 2016 United States
Former Group Member - Anti-phishing Working Group (APWG.org)
JAN 2013 – FEB 2016 United States
Former Group Member - Forum of Incident Response and Security Teams (FIRST.org)
