

JOSIAH YAH, PSM, PMP, CRISC

+ PROFESSIONAL PROFILE

Resourceful and detail-oriented with expertise in Coordinating diverse projects across construction, IT infrastructure, cybersecurity, operations, and data analysis. Skilled at bringing structure to fast-moving environments, building alignment across teams, and ensuring goals are delivered on time and within scope. Blending strong **technical expertise** with communicating clearly, anticipating challenges early, and keeping stakeholders informed every step of the way. Passionate about creating efficient systems, supporting collaborative teams, and driving continuous improvement.

+ SKILLS & CORE COMPETENCIES

Core Skills: Skilled in Agile/Scrum methodologies, project planning, risk management, process automation, stakeholder communication, and data-driven decision-making. SQL, Python, cybersecurity tools, cloud platforms, and enterprise systems (ERP/CRM).

Soft Skills: Organization, Team Collaboration, Adaptability. Known for resourcefulness, clear communication, proactive problem-solving, and consistent on-time project delivery.

+ WORK EXPERIENCE

PROJECT COORDINATOR/ESTIMATOR

March 2025 – August 2025

Procon Build Inc (Renovation & Construction), Hamilton, Ontario

- Coordinate detailed timelines, budgets, and resource schedules for multiple construction and renovation projects, maintaining on-time completion rate.
- Act as the bridge between clients, engineers, and vendors, improving project coordination efficiency through clearer communication and proactive follow-ups.
- Prepare cost estimates, quantity take-offs, and pricing for bids and change orders.
- Liaise with clients, engineers, and vendors to clarify requirements and prevent delays.
- Manage project documentation, including contracts, estimates, and progress reports.
- Support procurement by sourcing materials, evaluating quotes, and negotiating supplier terms.
- Track project costs and variances to maintain budget control.

PROJECT MANAGER IT – Freelance

January 2025 – March 2025

Valid Point Consulting – Brampton, Ontario

- Manage the end-to-end implementation of event management, sales solutions, and process automation tools for clients in various industries, enhancing operational efficiency, customer satisfaction, and scalability.
- Led the implementation of an automated online event management system for small to medium-scale businesses, integrating registration, calendar invites, and payment processing to streamline operations.
- Partnered with clients to define project requirements, develop project charters, and create detailed work breakdown structures (WBS) to guide execution using Asana & MS projects.
- Evaluated and selected technology vendors for solutions including event management platforms, CRM tools, and payment systems, ensuring cost-effectiveness and seamless integration.
- Supervised system setup, integration with existing platforms, and comprehensive user acceptance testing (UAT) to guarantee functionality and user satisfaction.
- Reduced client manual workload by up to 43% through process automation and system integration.
- Increased customer satisfaction ratings and conversion by an average of 18% which drove higher revenue

Adrois Inc – Hamilton, Ontario

- Supported the management and execution of cybersecurity-related projects by overseeing risk assessments, security audits, and the implementation of security protocols across various project phases to ensure smooth, secure project delivery.
- Managed the scheduling and execution of regular security audits and vulnerability assessments, ensuring timely identification and resolution of risks to meet project deadlines and stakeholder expectations.
- Led research on emerging cybersecurity threats and provided project teams with actionable recommendations, aligning security measures with project goals and mitigating potential risks.
- Collaborated with project managers to ensure incident response protocols were well-documented and aligned with the overall project risk management plan, ensuring rapid resolution of security breaches and minimal impact on project timelines.
- Developed a centralized vulnerability database, which streamlined the security assessment process, reducing project evaluation time.
- Contributed to an incident response plan that improved coordination during security incidents, enhancing the efficiency of threat containment and ensuring project timelines were maintained.

EXECUTIVE ASSISTANT IT & PROJECTS – CHAIRMAN

2018 – 2024

Halkin Exploration and Production Limited

- Managed executive schedules, strategic planning, and stakeholder communications using Microsoft Project and Asana, ensuring on-time project delivery.
- Coordinated construction and renovation projects, leveraging Primavera P6 for project tracking, delivering projects under budget and ahead of schedule.
- Supervised procurement and contract management via SAP Ariba, reducing procurement cycle times and enhancing supplier relationships.
- Oversaw financial planning aiding in budget forecasting and cutting operational costs.
- Implemented risk management strategies and quality assurance, improving project safety compliance.
- Successfully managed drilling operations and crude oil export logistics, contributing to an increase in operational efficiency.
- Streamlined procurement workflows, reducing project delays through improved vendor negotiations and contract oversight.

Data/Risk Analyst

2017 – 2018

OJB Global Power Limited

- Conducted comprehensive risk assessments and developed mitigation strategies using Microsoft Project and Excel, reducing project risks.
- Monitored and analysed project performance data, providing actionable insights that improved process efficiency.
- Researched market trends and prepared analytical reports, aiding executive decision-making and project prioritization.
- Collaborated with cross-functional teams to streamline data reporting processes, using Power BI for enhanced visualization.
- Optimized project risk registers, decreasing potential financial losses.
- Developed a data-driven reporting system that boosted project tracking accuracy.

+ ACADEMIC QUALIFICATIONS

- **Diploma in Graphics Design** – AOLCC College, Ontario | *In-View*
- **Diploma in Cyber Security** – ABM College, Ontario | *Oct 2024*
- **Graduate Foundation Program in Mathematics** – National Mathematical Centre | *Oct 2015*
- **B.Sc. Mathematics** – University of Maiduguri | *Jan 2013*

+ CERTIFICATIONS AND TRAININGS

- **ISACA - CRISC** (Certified in Risk and Information Systems Control)
- Professional Scrum Master I & II (**PSM I, PSM II**)
- **Google Analytics Individual Qualification**
- **Google Fundamental of Digital Marketing**
