PROFESSIONAL EXPERIENCE

Technical Support Specialist

Flight Club - Remote, Canada | January 2025 - Present

- Provided technical and customer support to users through email, phone and ticketing systems to ensure timely resolutions of issues.
- Troubleshoot account access, platform functionality and user experience issues, guiding users step by step.
- Escalated technical bugs and system issues to the engineering team with clear documentation and steps to recreate the issue.
- Assisted users with onboarding, setup and platform navigation to improve user adoption and satisfaction

Onboarding Operations Analyst/Project Manager

automotiveMastermind - Remote, Canada | June 2022 - February 2024

- Managed full-cycle onboarding for SaaS clients, averaging 15 concurrent projects, ensuring all deployment processes adhered to internal organizational standards and governance requirements.
- Collaborated cross-functionally with Engineering, UX/UI and Customer Service teams to improve product launches, process efficiency, and mitigate implementation risks.
- Spearheaded the rollout of a new product, leading onboarding and training peers to ensure team-wide adoption.
- Drove client success by clearly communicating project timelines and risk factors to non-technical stakeholders, ensuring transparency and alignment of objectives.

Software Implementation Analyst

PSD Citywide - Remote, Canada | March 2021 - June 2022

- Successfully implemented municipal asset management software for 10+ public sector clients, ensuring the accurate and consistent migration of critical operational data.
- Developed and delivered client training on system use, emphasizing best practices for user role management and data quality to minimize operational errors.
- Ensured accurate data migration and database configurations tailored to the clients needs.

IT Specialist/Supervisor

Microkool Computers - London, ON | February 2019 - February 2021

- Supervised a team of four in device repairs and IT support, specializing in troubleshooting network and system issues and hardware repairs & replacements.
- Streamlined IT support ticket process that included a mandatory process review step, resulting in quicker resolution times and improving accountability.
- Performed system installation, configuration, and troubleshooting, maintaining strict discipline over patch management and basic system hygiene across all devices.

Associate Commercial Director

Info-Tech - London, ON | January 2019 - February 2021

- Engaged with C-level executives to deliver IT research and advisory solutions compliant with global IT governance frameworks and industry best practices.
- Sustained 100% satisfaction among managed clients by aligning business strategy with best-practice IT research and recommendations.
- Led new client prospecting within the Caribbean region.
- Stayed up to date with evolving IT trends and services.
