

Edwin Flores

edwin.fh@gmail.com | 639-525-0351 | Saskatoon, SK, S7H 0Z4

HIGHLIGHT OF QUALIFICATIONS

- Extensive experience in IT Audit, Cybersecurity, and Information Security, focusing on governance, risk management and regulatory compliance.
- Certified as ISO 27001 Lead Auditor, CISM, CISA and Google Cybersecurity Professional.
- Strong analytical skills in risk analysis, IT controls, and mitigation strategies aligned with regulatory and industry standards.
- Skilled in multitasking, detail-oriented work, critical thinking, problem-solving, and meeting deadlines.
- Able to work independently or in teams, building effective relationships with colleagues and external audiences.
- Excellent written and verbal communication skills, capable of translating complex technical concepts and regulatory requirements into business-friendly communication and actionable steps for stakeholders.

WORK EXPERIENCE

Cybersecurity Specialist – Volunteer

Nov 2023 – Present

Avansec | Remote / Casual / On-call

- Conduct web application penetration testing and vulnerability analysis for casual client projects.
- Identify security weaknesses, misconfigurations, and potential exploitation paths, providing actionable remediation recommendations aligned with security policies and procedures.
- Collaborate with technical teams to validate fixes for the identified vulnerabilities.

Senior IT Auditor

Jun 2019 – Feb 2023

Banco Pichincha (Commercial Bank) | Lima, Peru

- Performed audits to evaluate IT controls and procedures, cybersecurity governance, risk, and compliance within the regulatory standards of the financial sector for internal systems and third-party vendors.
- Ensured compliance with ISO/IEC 27001/27002, COBIT, COSO, NIST CSF, NIST 800-53, SOC1 / SOC2, COBIT, COSO, SOX, and PCI DSS.
- Analyzed data access, authorization, encryption, and monitoring to ensure confidentiality, integrity, and availability of sensitive information across digital banking channels.
- Collaborated with IT, Stakeholders, and External Audit teams to develop and implement security policies, controls, procedures, and incident response protocols aligned with cybersecurity best practices and regulations.
- Prepared detailed audit and risk management reports, testing results, and risk assessments for executive review and compliance, consistently meeting deadlines.
- Monitored and tracked remediation efforts to address vulnerabilities and misconfigurations in line with the Bank's risk tolerances.

Cybersecurity Consultant / Analyst

Aug 2016 – May 2019

Avansec | Lima, Peru

- Managed and conducted Cybersecurity assessments aligned with GDPR, NIST SP 800-53, and CIS controls.
- Identified vulnerabilities, misconfigurations, and threats; presented findings and gave clients actionable security recommendations.
- Provided expert incident response guidance, ensuring clients are prepared to manage technological incidents.
- Supported security awareness campaigns, training sessions, and workshops on cybersecurity best practices, threats, and risk management.

Information Security Officer / Consultant

Jul 2013 – Jul 2016

Telefonica | Lima, Peru

- Conducted internal vulnerability assessments and risk analyses to identify vulnerabilities, threats, and compliance gaps, collaborating with IT and OT teams to remediate issues.
- Worked with IT and business stakeholders to review, develop, and implement Identity Management (IDM) systems, ensuring policies and technologies grant appropriate access based on roles.
- Collaborated with clients to develop risk mitigation strategies, overseeing security controls deployment to enhance cybersecurity, business continuity, and disaster recovery plans.

Supervisor of Security Operations Centre (promoted from SOC Analyst)

Jan 2013 – Jun 2013

Banco de Credito del Peru (Commercial Bank) | Lima, Peru

- Supervised a team of IT professionals responsible for managing access to core banking systems and customer platforms for employees and suppliers, ensuring effective utilization of management tools.
- Supported the Bank's applications and services by providing first-level incident support to sustain operational continuity related to security access.
- Coordinated with IT teams on change management, software deployment, IT audits, and backup management to provide access during their operations.

OTHER WORK EXPERIENCE

Assistant Event Manager (Promoted from Event Team Lead)

Oct 2023 – Dec 2025

Hearth Restaurant (Remai Modern Art Gallery) | Saskatoon, SK, Canada

- Led, planned, supervised, and executed events for 20–1000+ guests, ensuring smooth experiences by adhering to procedures and effective management.
- Scheduled the shifts, assigned the task based on the role, and supervised the event team during the execution of the events.
- Managed client communications during high-pressure events, identifying risks and solving problems on-site.
- Utilized transferable skills like leadership, incident management, and operational coordination relevant to security and project management.

EDUCATION

Bachelor of Information Systems Engineering - Universidad Peruana de Ciencias Aplicadas (UPC)

2011

Equivalent to a four-year Canadian bachelor's degree, evaluated by World Education Services (WES).
