SKILLS

Programming Languages, Frameworks, Libraries:

- | | | | | |
|--------------|--------------|-------------|---------------|---------------|
| – PowerShell | – VBA | – Node.JS | – ASP.NET | – MySQL |
| – Bash | – PHP | – ExpressJS | – Spring Boot | – MariaDB |
| – C / C++ | – JavaScript | – React | – JSON | – MySQL |
| – Python | – TypeScript | – Angular | – XML | – MS Access |
| – Java | – HTML5 | – jQuery | – SQL | – SQL Server |
| – C# | – CSS3 | – Bootstrap | – MongoDB | – Oracle Apex |

Tools, Methodologies and Others:

- | | | | | |
|---------------------|--------------------|-------------|--------------------|-------------------|
| – Git / GitHub | – Microsoft Office | – Cypress | – Active Directory | – Docker |
| – VS Code | – WordPress | – WireShark | – Okta Auth | – Postman |
| – Adobe Photoshop | – Elementor for WP | – WireGuard | – Linux | – Amazon AWS |
| – Adobe Illustrator | – Swagger | – JUnit | – RDC | – Microsoft Azure |

EXPERIENCE

Program Support, Canada Revenue Agency | London, ON Jun 2023 – Nov 2024

- *Designed, Planned, and Developed* full-stack ticket system to track task submissions for the team to complete, increasing the overall efficiency of the workforce
- *Maintained and Improved* the printing database by introducing a user interface and a control panel, which helps send and track around 500 letters every week, eventually increasing the team performance by about 40%
- *Developed* a note formatting website that re-organizes the data from the user in the scheme defined by the user, increasing the workflow speed by almost 50%
- *Developed and Integrated* an automated update script that keeps Access databases and Excel sheets up-to-date as the updates roll out, cutting down the average update time by 2 hours

End User Support Technician, J.D. Power | London, ON Oct 2022 – Dec 2022

- *Upgraded* 50+ expired devices in the organization in order to keep up with the latest technology
- *Solved* 70+ account issues through Active Directory and Okta
- *Assisted* onboarding of 30+ new hires within a span of 60 days to address the deficiency in the workforce
- *Provided* a single point of contact for end users to receive support and maintenance within the organization's desktop computing environment

PROJECT HIGHLIGHTS

Virtualization & Hosting Lab

Built a self-hosted virtualization environment on recycled hardware to consolidate NAS, web servers, proxy, and remote access services, reducing costs and improving reliability.

Tech Stack: Proxmox, TrueNAS, Ubuntu Server, Docker, Nginx, RustDesk, Linux

Secure Reverse Proxy & Traffic Management

Deployed a reverse proxy with Nginx and Nginx Proxy Manager to route traffic across multiple services. Enforced HTTPS with automated SSL provisioning/renewal via Let's Encrypt and implemented security rules to block common web exploits.

Tech Stack: Ubuntu Server, Docker, Nginx, Nginx Proxy Manager, Let's Encrypt, Linux

EDUCATION

Computer Programming and Analysis, Fanshawe College | London, ON

Awards: President's Honour Roll
