PROFESSIONAL EXPERIENCE

Software Developer - Canada Life, London ON

Jun 2020 – Feb 2024

- **Developed, Documented and Maintained** mission-critical codebases while implementing best practices
- **Conducted component and end-to-end testing** to ensure application quality
- **Collaboration and Communicated** across QA, Design, Infrastructure and various Support teams
- **Conducted code reviews** resulting in improved code quality and reduced bugs in production
- **Mentored junior developers**, improving team capabilities and project outcomes
- **Reduced critical incidents by 25%** and **ensured 99.9% uptime** via Splunk monitoring and Salesforce Workbench
- **Ensured AODA compliance** by implementing accessible front-end designs using WCAG 2.1 standards
- **Developed OWASP-compliant code** by applying security best practices such as input validation, secure authentication methods, and regular vulnerability assessments, reducing security risks
- **Automated deployment processes with Docker**, cutting deployment time by 50%
- **Communicated complex technical concepts** to non-technical stakeholders for smooth project execution
- **Supported and Maintained** legacy systems, **enhancing user experience and functionality**
- **Optimized** legacy applications, **reducing load times by 30%** using Angular and Spring Boot
- **Applied best practices** for front-end development using Angular and RxJS
- **Increased service reliability by 20%** through effective NestJS backend API maintenance
- **Developed 50+ high-quality user stories** for a large scale application using Salesforce OmniStudio and Apex

Software Developer Co-op & Part-time - London Life, London ON

Jan 2018 – Apr 2020

- **Modernized** legacy MS Access applications, **reducing processing time by 40%**
- **Streamlined manual processes** with React.js, C#, and .NET Core, **boosting operational efficiency by 35%**
- **Enhanced efficiency and user satisfaction** through support and maintenance of MS Access, Excel, and web applications
- **Developed a support framework** for transitioning legacy systems to modern architectures
- **Implemented CI/CD pipelines** for automated testing and deployment, **enhancing development efficiency**
- **Applied best practices for CSS and front-end development** using React.js
- **Collaborated with cross-functional teams**, ensuring seamless integration of new features and technologies

EDUCATION

AWS Certified Solutions Architect - Associate

Issued: Jan, 2025

BSc in Computer Information Systems

In-Progress

Athabasca University, Alberta

Computer Programmer Analyst (3y Advanced Diploma)

April 2020

Fanshawe College, London ON

KEY SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3, SQL, C#, Java, PHP, Python

Frameworks: Node.js, React.js, Express.js, Angular, NestJS, .NET Core, Spring Boot

Databases: MongoDB, MySQL, PostgreSQL, SQLite, Redis

Tools & Platforms: AWS, Salesforce, Git, Docker, Jira, Confluence, Bitbucket, Splunk, WordPress

Methodologies: Agile Scrum, TDD, RESTful API Development, SDLC, AODA, WCAG, OWASP
