

Tai Corraggio

Cardinal, ON | TaiCorraggio@gmail.com | (267) 591-7717 | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

Authorized to work in Canada (open work permit valid through June 2026). Senior Software Engineer with 8+ years of experience developing scalable, high-quality applications in collaborative environments. Passionate about creating impactful solutions that improve lives.

SKILLS

Frontend: React.js, Redux, HTML5, CSS

Backend: Django, Ruby on Rails, Node.js, REST, PostgreSQL, MongoDB, GraphQL

Programming Languages: Python, TypeScript, JavaScript, Ruby, SQL

Tools & Infrastructure: AWS (Certified Cloud Practitioner), Docker, Git, DataDog, Sidekiq, Agile

Other: Testing (E2E, Unit), Monitoring & Logging, CI/CD

EXPERIENCE

Senior Software Engineer

Coforma

August 2023 - Present

- Delivered and maintained features in React/Rails supporting 10,000 benefit applications per week, ensuring system stability and timely access to services.
- Created and integrated APIs for secure, automated data exchange between internal and third-party services.
- Reduced error rate for a critical Sidekiq job by 80% through targeted logging, DataDog dashboards/monitors, and systematic bug fixes.

Software Engineer III

Element 84 (previously Azavea)

February 2020 - August 2023

- Led development for multiple full-stack applications (React/TypeScript, Python) resulting in client retention and over \$200k in follow-on contracts.
- Optimized data visualization pipelines to render maps of hundreds of thousands of geospatial features in under 1 second.
- Collaborated closely with cross-functional teams to translate business needs into technical solutions, ensuring high usability and performance.

Lead Front-end Developer

Starship Health Technologies

April 2017 - November 2019

- Led the front-end development of a React web application and a cross-platform React Native mobile application for iOS and Android, released to the App Store and Google Play.
- Owned the full cross-platform mobile app lifecycle from feature definition through delivery, including user testing and post-launch updates.
- Integrated APIs and implemented responsive, user-friendly interfaces.

EDUCATION

Full-Stack Software Engineering Bootcamp

Thinkful

September 2016 - February 2017

Bachelor of Science - English Education

West Chester University

August 2008 - May 2012
