

Fatima Labade

Software Developer

☎ (289) 830-9290 | ✉ fatima.labade@ontariotechu.net | 🔗 [LinkedIn](#) | 📄 [Portfolio](#) | 📍 North York, ON

Technical Skills

- **Language & Frameworks:** JavaScript (ES6+), TypeScript, React, Node.js, Express, MongoDB, SQL, PostgreSQL, Python, C++, C
- **Tools & Platforms:** Git/GitHub, WebSockets (Socket.io), Cloudinary, Stripe, Docker (learning), AWS (learning), CI/CD, styled-components, HTML5, CSS3
- **Testing & APIs:** REST APIs, GraphQL (learning), Jest, OpenAI API
- **Design & Hardware:** Figma, Photoshop, UI/UX design, CAD, SOLIDWORKS, ESP32, Raspberry Pi, Arduino, PLC programming, PCB design

Projects

Studying Assistant App- 🔗 [visit site](#)

May 2025 - Present

- Built a productivity app for students featuring a Pomodoro timer, quote board, music player, drawing pad, task list, and OpenAI chatbot.
- Implemented industry standard authentication by integrating JWT tokens, password hashing with bcrypt, cookies, password resetting, and email verification features to protect user data.
- Enhanced React performance by using Redux and Context API for efficient state management.
- Integrated Cloudinary for scalable image, audio, and video storage.
- Created a RESTful API by writing endpoints to perform CRUD operations between the front-end and the back-end with Node.js, Express.js, and React.js.

Spiritual Development App - 🔗 [visit site](#)

Jan 2025 - Present

- Developed a comprehensive faith app with tools for prayer times, Quran access, and locating nearby mosques.
- Applied advanced JavaScript concepts (callbacks, promises, ES6) to optimize API requests.
- Built RESTful architecture using Node.js, integrating third-party APIs like Google and Islamic Finder to fetch live and accurate Quran and prayer times data .
- Designed a responsive UI to ensure accessibility and consistent user experience across devices.

Smart Shopping Organizer App - 🔗 [visit site](#) 🎥 [watch demo](#)

Oct 2024 - Dec 2024

- Developed a shopping organizer with automated AI-assisted list creation using the OpenAI API.

- Built a Node.js/Express backend and integrated MongoDB for secure and scalable data storage.
- Implemented file uploads with Multer and Cloudinary for receipt management.
- Added WebSocket-based real-time messaging so users can share and update lists instantly.
- Focused on usability by reducing setup steps and improving navigation flow.

Autonomous Package Retrieval Robot - [visit site](#)

Sept 2020 - Dec 2020

- Designed and programmed an autonomous robot capable of retrieving and delivering packages.
- Implemented PID motor control in C and MATLAB for smoother navigation.
- Integrated Arduino and Python OpenCV to track objects and follow waypoints with over 90% accuracy.
- Integrated waypoints, timer interrupts in Arduino with OpenCV in Python, and calibrated an overhead camera for the vision system to deliver a reliable prototype..

Experiences

Nordia, Remote - *Inbound Sales Agent*

Feb 2022 - Jun 2025

- Leveraged NGSS and strategic probing methods to enhance sales performance and reduce order cancellations by accurately identifying customer needs prior to presenting any product offers.
- Multitasked effectively, handling calls, orders, and payments across multiple systems.
- Communicated professionally via phone and email, following company guidelines and policies.

General Motors (GM), Oshawa - *Supply Chain Supervisor*

May 2019 - Sept 2019

- Monitored assembly line operations for potential safety hazards and conducted safety inspections, including verifying floor markings, hazardous material labels, restricted area signage, and the status and accessibility of emergency equipment at truck loading docks.
- Logged production downtime with root cause analysis and corrective actions that were taken.
- Oversaw staffing by tracking attendance, arranging manpower replacements, completing end-of-shift reports, and coding absences, vacation pay, and labor charges.

Education

B.Sc. of Mechatronics Engineering - Ontario Tech University, Oshawa (2021)

Languages

English (Native), **Arabic** (Native), **Turkish** (Intermediate)
