TRISTAN ARANA CHARLEBOIS

23 Riverside Drive, Welland, ON, Canada L3C-5C8

(905) 714-5582 aranachildren@gmail.com

EDUCATION

Honours Bachelor of Science Co-op

Brock University, St. Catharines, ON

Sept. 2019 - Jun. 2025

- Major in Computer Science with Concentration in Software Engineering (5 year study degree with co-op terms).

EXPERIENCE

By The People / Document Transcriber

Library of Congress, Washington, DC

Jul. 2025 - Present

- Volunteered as a transcriber for the Library of Congress's crowdsourced transcription program.
- Worked on transcribing over 500 documents (letters, speeches, etc.) partially or fully.

University Computer Science Capstone Project – Reroute – www.re-route.ca

Brock University, St. Catharines, ON

Jan. 2025 - May 2025

- Worked as part of a 6-member team following Agile methodology to develop Reroute, an optimized routing application allowing individuals and companies to plan out the most optimal route for their work vehicles, including routing multiple vehicles simultaneously, weighing routes based on petrol usage, left hand turns, etc. Developed using React and Next.js, and hosted on Vercel. Performed rigorous unit, performance, load, stress, capacity, and accessibility testing via JUnit and Playwright.
- Developed a MongoDB database hosted on Atlas for storing user account information and storing geographic coordinates in GeoJSON corresponding to computed routes from an in-house developed genetic algorithm for routing.
- Maintained email server using Google SMTP to handle account actions such as password resets, email verification, etc.
- Allowed third-party login providers like Google Authenticator to access our website using OAuth via NextAuth, and integrated Stripe payments.

Ministry of Government and Consumer Services / Infrastructure Technology Services Co-op

301 St. Paul Street, 5th Floor, St. Catharines, ON

Jan. 2021 - Aug. 2022

- Employed as an ITSM analyst within the Enterprise Infrastructure Technology (EIT) Co-op program.
- Managed internal accounts of provincial government employees, handling permissions and requests for modifications of profiles.
- Assisted users with issues concerning their computer systems, access capabilities on cards, and onboarding procedure for new hires.
- Created and maintained cluster of servers to maintain compatibility with internal tools (BMC Helix).

Niagara Catholic District School Board Co-op

Niagara Launch Centre, Welland, ON

Jul. 2019 - Aug. 2019

- Increased store efficiency for employees by assessing outdated database backend and upgrading from a manual spreadsheet input to a Microsoft Access system.
- Improved registration interface via programming a new frontend in C# using Visual Studio, allowing employees to enter information themselves instead of relying on a secretary.
- Created a cross-platform mobile app for tablets, allowing employees ability to work while out on assignments within work vehicles, in contrast to waiting until at HQ.

SKILLS

- Native English speaker. Skilled at communicating with team members, giving presentations, and thoroughly discussing issues. Can be flexible to changing circumstances, adaptable in new work environments. Can quickly pick up and learn new concepts and deploy it in a professional environment. Not afraid to practice and refine skills through review and criticism.
- Language Experience: Lua, C, C#, Rust, Python (Django), Java (Spring Boot), JS/Typescript (Node, React/Redux, Next.js/Vercel, Angular), HTML/CSS, SQL
- Tool Experience: Microsoft Office Suite, Git, Webpack, Visual Studio, MongoDB Atlas, Docker/Kubernetes, Grafana, Android Studio
- Systems Experience: Windows, GNU/Linux, Unix (Mac, BSD), Arduino, CUDA, Raspberry Pi
